

Fidelity Growth America Fund

**Semi-Annual
Management Report of
Fund Performance**
December 31, 2011

Caution Regarding Forward-looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Semi-Annual Management Report of Fund Performance as at December 31, 2011 Fidelity Growth America Fund

This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual financial statements for the investment fund. You can get a copy of the semi-annual financial statements at your request, and at no cost, by calling 1-800-263-4077, by writing to us at Fidelity Investments, 483 Bay St. Suite 300, Toronto ON M5G 2N7 or by visiting our website at www.fidelity.ca or SEDAR at www.sedar.com.

Security holders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure relating to the investment fund.

Management Discussion of Fund Performance

Results of Operations

Fidelity Growth America Fund ("Fund"), Series B, returned -3.6% for the six-month period ended December 31, 2011, after fees and expenses. The net returns of the other series of this Fund are similar to those of Series B, except for differences attributable to expense structures. By way of comparison, the S&P 500 Index, broadly representative of the U.S. equities market, returned 1.6%, in Canadian dollar terms. The Fund's underperformance of the benchmark is primarily attributable to holdings in the financials, energy and telecommunication services sectors. The Fund ended the period with an exposure of 13.3% to financials, 12.3% to energy and 3.1% to telecommunication services, which was in line with the benchmark's exposure.

U.S. equities, as measured by the S&P 500 Index, gained 1.6% (in Canadian dollar terms) during the period, led by encouraging economic data. The European debt crisis and its implications for the global economic recovery had an impact on stock market returns. More recently, however, European leaders outlined steps to refinance peripheral debt and announced increased involvement by the IMF. Better-than-expected economic growth and corporate earnings calmed fears of a recession in the U.S. Markets remained volatile amid growing uncertainty over the future of the euro, the ability of the U.S. to resolve its fiscal deficit situation and China's ability to withstand global economic headwinds.

During the six-month period, lead portfolio manager John Power and the U.S. sector portfolio management team kept the sector weightings closely in line with the benchmark.

While the Fund is neutrally positioned at the sector level, the industry group allocations deviated from the benchmark. In the financials sector, the Fund's exposure to the diversified financials industry was reduced. The sector witnessed high volatility, given the ongoing debt crisis in the eurozone and growing concerns about large money-centre banks. Exposure to the insurance industry was increased; these companies were relatively insulated from the debt crisis in Europe, due to their defensive characteristics. Mr. Power increased exposure to the food, beverage and tobacco industry, after concerns about inflation eased, while exposure to the food and staples retailing industry was reduced. However, the Fund still ended the review period with an underweight exposure to the food, beverage and tobacco industry. Mr. Power is focusing on companies that have low input-cost pressures, the ability to reduce costs and the scope to be price setters in their markets. In the consumer discretionary sector, Mr. Power reduced exposure to the retailing industry, while increasing exposure to select companies in the media industry that have strong fundamentals and are expected to perform well regardless of macroeconomic concerns. He prefers companies that derive a significant portion of their earnings from the U.S., and those that are likely to benefit from increasing penetration in China and other key emerging markets.

Recent Developments

Portfolio manager John Power believes the near-term outlook will remain uncertain and global financial markets volatile until EU leaders agree on a policy to stem the sovereign debt crisis that the markets will view as credible. He has identified the systemic issues in Europe as the main global economic risk. However, U.S. corporate profits remain healthy, balance sheets have been repaired, and business momentum, though varied across sectors, remains positive. In addition, there are signs that China has avoided a hard economic landing, and there are also encouraging indications that the U.S. labour and housing markets are both improving. Overall, Mr. Power is more optimistic about the prospects for the U.S. economy than the general consensus, and believes that the market is being conservative about growth.

The Fund's sector weightings remain closely aligned with the ten Global Industry Classification Standard sectors of the S&P 500 Index, reflecting the team's intention to add return through stock selection, not through active sector allocation relative to the market. However, stock selection may drive positive or negative allocations, relative to the Index, at the sub-industry level.

As at December 31, 2011, the information technology sector accounted for the Fund's largest absolute exposure, followed by the financials sector. At the industry level, household and personal products were the most overweighted, while the food, beverage and tobacco industry group was the most underweighted.

On February 3, 2012, Fidelity announced that Young Chin will be assuming the role of lead portfolio manager, responsible for oversight of the Fidelity Growth America Fund, effective March 31, 2012. The Fund's sector portfolio managers, who are responsible for security selection and portfolio construction with their respective sector assignments, continue in their current roles.

Accounting Standards

Changeover to International Financial Reporting Standards

The Canadian Accounting Standards Board (AcSB) of the Canadian Institute of Chartered Accountants (CICA) had planned to adopt International Financial Reporting Standards (IFRS), as published by the International Accounting Standards Board, effective January 1, 2011. Subsequently, the AcSB deferred the adoption of IFRS for investment companies, which include investment funds. Investment companies may continue to apply existing GAAP standards until fiscal years beginning on or after January 1, 2014.

The manager is reviewing and developing a plan to meet the above timetable for changeover to IFRS. The impact of IFRS on accounting policies and implementation decisions will mainly be in the areas of presentations and disclosures in the financial statements of the Fund. Currently, two significant areas that may impact the presentation are IAS 32 Financial Instruments: Presentation, and IAS 27 Consolidated and Separate Financial Statements. The manager is currently assessing the Fund's unitholder structure and investments to determine the impact of these standards. The manager has currently not identified any changes that will impact net asset value per unit (NAVPU) as a result of the changeover to IFRS. However, this present determination is subject to change resulting from the issuance of new standards or new interpretations of existing standards.

Related Party Transactions

Manager and Portfolio Adviser

The Fund is managed by Fidelity Investments Canada ULC (Fidelity). Fidelity is a wholly-owned subsidiary of FMR LLC. FMR LLC is the parent company of a group of subsidiaries collectively known as Fidelity Investments.

Fidelity provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, bookkeeping, record-keeping and other administrative services for the Fund.

Pyramis Global Advisors, LLC (Pyramis), an affiliate of Fidelity, provides investment advice to the Fund. Pyramis provides investment advice with respect to the Fund's investment portfolio and arranges for the acquisition and disposition of portfolio investments, including all necessary brokerage arrangements.

The Fund pays Fidelity and Pyramis a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity and Pyramis management and advisory fees of \$689,000 for the period ended December 31, 2011.

Administration Fee

Fidelity charges the Fund a fixed administration fee in place of certain variable expenses. Fidelity, in turn, pays all of the operating expenses of the Fund, other than certain specified fund costs (e.g. the fees and expenses of the Independent Review Committee, taxes, brokerage commissions and interest charges). The Fund pays an annual rate, which is calculated on a tiered basis, based on the net asset value of each Series, calculated daily and payable monthly. The Fund paid Fidelity administration fees of \$108,000 for the period ended December 31, 2011.

Brokerage Commissions

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Fidelity, including National Financial Services LLC, provided it determines that these affiliates' trade execution abilities and costs are comparable to those of non-affiliated, qualified brokerage firms, on an execution-only basis. Commissions paid to brokerage firms that are affiliates of Fidelity were \$0 for the period ended December 31, 2011. Fidelity receives standing instructions from the IRC in respect of policies and procedures governing best execution, which includes brokers affiliated to Fidelity, at least once per year.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period end of the years shown. This information is derived from the Fund's audited annual and/or unaudited semi-annual financial statements. Please see the front page for information about how you can obtain the Fund's annual or semi-annual financial statements.

Net asset value per unit, end of period	\$ 16.1815	\$ 16.8072	\$ 14.4305	\$ 14.2452	\$ 18.1063	n/a

^A Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

^B Distributions were paid in cash or reinvested in additional units of the Fund, or both, and excludes distributions of management fee reductions to unitholders.

^C This information is provided as at period end of the year shown.

^D Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset values during the period.

^E The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of the portfolio securities, excluding short-term securities.

^F The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

^G For fiscal periods beginning on or after October 1, 2006, the net assets per unit is calculated in accordance with Section 3855 of the CICA Handbook.

Net asset value per unit, end of period	\$ 10.4154	\$ 11.1225	\$ 10.0538	\$ 10.4638	\$ 14.1268	n/a

^A For the period November 6, 2006 (commencement of sale of units) to June 30, 2007.

^B Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

^C Distributions were paid in cash or reinvested in additional units of the Fund, or both, and excludes distributions of management fee reductions to unitholders.

^D This information is provided as at period end of the year shown.

^E Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset values during the period.

^F The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of the portfolio securities, excluding short-term securities.

^G The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

^H For fiscal periods beginning on or after October 1, 2006, the net assets per unit is calculated in accordance with Section 3855 of the CICA Handbook.

Management and Advisory Fees

Fidelity serves as manager of the Fund and Pyramis serves as the investment advisor of the Fund. The Fund pays Fidelity and Pyramis a monthly management and advisory fee for their services, based on the net asset value of each Series, calculated daily and payable monthly. Fidelity uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund units, as well as for the general investment management and administrative expenses.

	Series A Units	Series B Units	Series F Units	Series T5 Units	Series T8 Units	Series S5 Units	Series S8 Units
Management and Advisory Fees	2.00%	1.85%	0.85%	2.00%	2.00%	1.85%	1.85%
As a percentage of management fees:							
Dealer Compensation*	31.62	54.05	—	23.24	29.31	54.05	54.05
Investment management, administration and other	68.38	45.95	100.00	76.76	70.69	45.95	45.95

* Dealer compensation represents cash commissions paid by Fidelity to registered dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by Fidelity during the period. For new Funds or Series the amounts presented may not be indicative of longer term operating periods.

Fidelity Growth America Fund

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

On January 10, 2005, Fidelity stopped offering Series A with the initial sales charge ("ISC") option and created Series B, which is only available with the ISC option, and transferred the existing Series A ISC units into the new Series. Series B management fees are lower than Series A. Returns for Series B include the actual returns for units when they were available as Series A ISC units.

On January 10, 2005, Fidelity stopped offering Series T8 with the initial sales charge ("ISC") option and created Series S8, which is only available with the ISC option, and transferred the existing Series T8 ISC units into the new Series. Series S8 management fees are lower than Series T8. Returns for Series S8 include the actual returns for units when they were available as Series T8 ISC units.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance was changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Fidelity's mutual funds are sold by registered Investment Professionals. Each Fund has a simplified prospectus, which contains important information on the Fund, including its investment objective, purchase options, and applicable charges. Please obtain a copy of the prospectus, read it carefully, and consult your Investment Professional before investing. As with any investment, there are risks to investing in mutual funds. There is no assurance that any Fund will achieve its investment objective, and its net asset value, yield, and investment return will fluctuate from time to time with market conditions. Investors may experience a gain or loss when they sell their units in any Fidelity Fund. Fidelity Global Funds may be more volatile than other Fidelity Funds as they concentrate investments in one sector and in fewer issuers; no single Fund is intended to be a complete diversified investment program. Past performance is no assurance or indicator of future returns. There is no assurance that either Fidelity Canadian Money Market Fund or Fidelity U.S. Money Market Fund will be able to maintain its net asset value at a constant amount. The breakdown of Fund investments is presented to illustrate the way in which a Fund may invest, and may not be representative of a Fund's current or future investments. A Fund's investments may change at any time.
