**Read a fund's prospectus and consult your financial advisor before investing.** Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. Investors will pay management fees and expenses, may pay commissions or trailing commissions, and may experience a gain or loss. The indicated rates of return are the historical annual compounded total returns for Series A units (prior to October 10, 2000, the only series) including changes in unit value and the reinvestment of all distributions and do not take into account sales, redemption, distribution, optional charges, or income taxes payable by any securityholder that would have reduced returns. † On January 10, 2005, we stopped offering Series A with the initial sales charge ("ISC") option and created Series B, which is only available with the ISC option, and transferred the existing Series A ISC units into the new series. Series B management fees are 0.15% lower than Series A. Performance figures for Series B include the actual performance for units when they were available as Series A ISC units. \*Morningstar Research Inc. All rights reserved.
