HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Fidelity has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

■ HOW MUCH DOES IT COST?

The fees and expenses - including any commissions - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. ■ HOW MUCH DOES IT COST? (CONTINUED)

More about the trailing commission

The trailing commission is an ongoing commission. Fidelity pays a trailing commission to all dealers, including discount brokers, for as long as you own the Fund. This is for services and advice that your representative and their firm provide to you. When these commissions are paid to discount brokers, they are for services and any tools or other assistance that your discount broker may offer.

The trailing commission is paid from the Fund's management fee and is based on the value of your investment.

TRAILING COMMISSION

| AS A PERCENT (%) | IN DOLLARS |
|--|---|
| Up to 1.000% of the value of your investment each year | \$0 to \$10.00 each year for every \$1,000 invested |

■ OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

| FEE | WHAT YOU PAY |
|------------------------------------|--|
| Short-term trading fee | If you sell/switch units within 30 days of the oldest purchase/switch into the Fund, you <i>will</i> be charged 1% of the value of those units. If you sell/switch units within 30 days of the most recent purchase/switch into the Fund, you <i>may</i> be charged 1% of the value of those units or have your account restricted/closed. This fee goes to the Fund. |
| Switch fee | Your representative's firm may charge you up to 2% of the value of units you switch to another series of the Fund or another Fidelity Fund. |
| Indirect fee | You pay a management fee to Fidelity of 1.00%. In addition, the Fund invests directly in an underlying ETF that in turn invests in other underlying ETFs that charge a management fee and/or administration fee, as applicable. Based on the weightings of these other underlying ETFs in the portfolio of the underlying ETF, which can change from time to time and may result in a higher or lower indirect fee than is estimated, we estimate the effective, indirect fee of the series to be an additional 0.39%. As a result, the total estimated management fees, including indirect fees, paid to Fidelity are 1.39% before sales tax. |
| Fee for sizable redemptions | If you have been notified that you own a sizable percentage of a Fund, you <i>will</i> be subject to a 1% penalty of the value of the units that you sell/switch if you sell/switch your units of the Fund within 30 days of your most recent purchase/switch into the Fund. You <i>may</i> be subject to a 1% penalty of the value of the units if you fail to provide the required notice to Fidelity prior to completing a sizable redemption. This fee goes to the Fund. |
