Effective August 25, 2023, the indirect fee changed from approximately 0.37% to approximately 0.38% because of a change to the underlying fund's composition. This change will result in an increase to the MER going forward. The indirect fee is based on the weightings of the portfolio of the underlying fund, and does not take into account the performance of any fund in which the underlying fund invests, rebalancing events nor any other changes to the underlying fund's strategic allocation.

FUND FACTS

Fidelity All-in-One Growth ETF Fund

Series S5

■ HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Fidelity has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

■ HOW HAS THE FUND PERFORMED?

This section tells you how Series S5 units of the Fund have performed since the date this series was created. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

■ WHO IS THIS FUND FOR?

Investors who:

- plan to hold their investment for the medium- to long-term
- want to gain exposure to global equity securities, fixed income securities and a small amount of cryptocurrencies
- want the convenience of a diversified portfolio in a single fund
- can handle the volatility of returns generally associated with equity and cryptocurrency investments;
- want to receive tax-efficient monthly distributions

The Fund is not an appropriate investment if you have a short-term investment horizon.

■ A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions that are not a return of capital are included in your taxable income, whether you get them in cash or have them reinvested.

Fund distributions that are a return of capital are not included in your taxable income, but will affect your capital gains or losses on disposition.

■ HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series S5 units of the Fund. The fees and expenses - including any commissions - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

■ HOW MUCH DOES IT COST? (CONTINUED)

2 FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the return you get on your investment.

The Fund's expenses are made up of the management fee, fixed administration fee, and operating expenses and trading costs (fund costs). The series' annual management fee is 1.00% of the Fund's value. The series' annual fixed administration fee will fall under one of the three tiers below, depending on the amount of Fund assets:

AMOUNT OF FUND ASSETS	ADMINISTRATION FEE
Under \$100 Million	0.165%
\$100 Million - \$ 1 Billion	0.155%
Over \$ 1 Billion	0.145%

However, the Fund invests directly in an underlying ETF that in turn invests in other underlying ETFs that charge a management fee and/or administration fee, as applicable. Based on the weightings of these other underlying ETFs in the portfolio of the underlying ETF, which can change from time to time and may result in a higher or lower indirect fee than is estimated, we estimate the effective, indirect fee of the series to be an additional 0.38%. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. Fidelity pays a trailing commission to all dealers, including discount brokers, for as long as you own the Fund. This is for services and advice that your representative and their firm provide to you. When these commissions are paid to discount brokers, they are for services and any tools or other assistance that your discount broker may offer.

The trailing commission is paid from the Fund's management fee and is based on the value of your investment.
