Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

Effective July 23, 2024, Fidelity Advantage Ether ETF® (ETF), the underlying ETF to the Fund, reduced its management fee from 0.40% to 0.39% and reduced some of the expenses that would be reflected in the Fund's management expense ratio (MER). As a result, the MER will be lower going forward and is estimated to be 0.44% (inclusive of HST), on an annualized basis. The total expenses of the Fund, including HST, portfolio transaction costs and expenses, will be reflected in the Fund's management report of fund performance, posted semi-annually.

This Fund is an alternative mutual fund. It has the ability to invest in asset classes or use investment strategies that are not permitted for conventional mutual funds. The specific strategy that differentiates this Fund from conventional mutual funds is its investment in an underlying fund that invests only in ether. This strategy will be used in accordance with the Fund's investment objectives and strategies, and during certain market conditions, may accelerate the pace at which the Fund decreases in value.

HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Fidelity has rated the volatility of this Fund as **high**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.
