## HOW RISKY IS IT?

The value of the Pool can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility". In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### RISK RATING

Fidelity has rated the volatility of this Pool as **low**. This rating is based on how much the Pool's returns have changed from year to year. It doesn't tell you how volatile the Pool will be in the future. The rating can change over time. A pool with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Pool's returns, see the 'What are the risks of investing in the fund?' section of the Pool's simplified prospectus.

### NO GUARANTEES

Like most funds, this Pool doesn't have any guarantees. You may not get back the amount of money you invest.

## ■ WHO IS THIS FUND FOR?

Investors who:

- want a temporary "parking spot" for their cash

## ■ A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

## ■ HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series B units of the Pool. The fees and expenses - including any commissions - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### 1 SALES CHARGES

You may pay a sales charge when you buy Series B units of the Pool.

### 2 FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the return you get on your investment.

## ■ HOW MUCH DOES IT COST? (CONTINUED)

### More about the trailing commission

The trailing commission is an ongoing commission. Fidelity pays a trailing commission to all dealers, including discount brokers, for as long as you own the Pool. This is for services and advice that your representative and their firm provide to you. When these commissions are paid to discount brokers, they are for services and any tools or other assistance that your discount broker may offer.

The trailing commission is paid from the Pool's management fee and is based on the value of your investment.

#### TRAILING COMMISSION

AS A PERCENT (%)	IN DOLLARS
Up to 0.250% of the value of your investment each year	\$0 to \$2.50 each year for every \$1,000 invested

## ■ OTHER FEES

FEE	WHAT YOU PAY
<b>Switch fee</b>	Your representative's firm may charge you up to 2% of the value of units you switch to another series of the Pool or another Fidelity Pool.
