#### ■ HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

#### RISK RATING

Fidelity has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

#### NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

#### ■ HOW HAS THE FUND PERFORMED?

This section tells you how Series B shares of the Fund have performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

##### YEAR-BY-YEAR RETURNS

This chart shows how Series B shares of the Fund performed in each of the past 10 years. The Fund dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

##### BEST AND WORST 3-MONTH RETURNS

This table shows the best and worst returns for Series B shares of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	RETURN	3 MONTHS ENDING	IF YOU INVESTED \$1,000 AT THE BEGINNING OF THE PERIOD
<b>Best return</b>	12.8%	June 30, 2020	Your investment would rise to \$1,128
<b>Worst return</b>	-10.5%	March 31, 2020	Your investment would drop to \$895

##### AVERAGE RETURN

A person who invested \$1,000 in Series B shares of the Fund 10 years ago now has \$1,728. This works out to an annual compound return of 5.6%.

#### ■ WHO IS THIS FUND FOR?

Investors who:

- plan to hold their investment for the medium- to long-term
- want to gain Canadian equity, fixed income and high yield exposure
- want the convenience of a diversified portfolio in a single fund
- can handle the volatility of returns generally associated with equity investments
- may be looking to benefit from combined management and administration fee rebates based on the amount of their investment in the Program

The Fund is not an appropriate investment if you have a short-term investment horizon.

Registered plan investors should be aware that the Fund may, from time to time, bear an income tax expense which will reduce returns.

#### ■ A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

## ■ HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series B shares of the fund. The fees and expenses - including any commission - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Series B shares of the Fund are automatically included in the Program. The Program offers management and administration fee reductions, paid in the form of reinvested distributions ("fee rebates"), that increase progressively with assets, resulting in lower combined management and administration fees (before sales tax) than otherwise. We will automatically apply fee rebates on your Series B shares of the Fund when you meet the applicable investment threshold. If you no longer meet the applicable investment threshold for a particular tier of fee rebates, we will automatically decrease the amount of the fee rebates to a lower tier, which will result in higher combined management and administration fees (before sales tax) but that will not exceed the Series B combined management and administration fees. See the fee rebates table under "Fund Expenses" below. For more details on the Program, see "Purchases, Switches and Redemptions" and "Fees and Expenses" in the Fund's simplified prospectus, and speak to your representative.

### 1 SALES CHARGES

You may pay a sales charge when you buy Series B shares of the Fund.

SALES CHARGE OPTION	WHAT YOU PAY WHEN YOU BUY YOUR SHARES		
	AS A PERCENT (%)	IN DOLLARS	HOW IT WORKS
<b>Initial Sales Charge</b>	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none"><li>You and your representative decide on the rate.</li><li>The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.</li></ul>

### 2 FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the return you get on your investment.

As of November 30, 2022, the Fund's expenses were 2.09% of its value. This equals \$20.90 for every \$1,000 invested.

	ANNUAL RATE (AS A % OF THE FUND'S VALUE)
<b>Management expense ratio (MER)</b>	2.07%
This is the total of the Fund's management fee (including the trailing commission), fixed administration fee, and certain operating expenses (fund costs). Fidelity waived some of the Fund's expenses. If it had not done so, the MER would have been higher.	
<b>Trading expense ratio (TER)</b>	0.02%
These are the Fund's trading costs.	
<b>FUND EXPENSES</b>	<b>2.09%</b>

Fee rebates on Series B shares in the Program are listed in the table below:

ASSET LEVEL	TIER	FEE REBATE
\$0-\$249,999		n/a
\$250,000-\$999,999	1	0.025%
\$1,000,000-\$2,499,999	2	0.050%
\$2,500,000-\$4,999,999	3	0.075%
\$5,000,000-\$9,999,999	4	0.125%
\$10,000,000+	5	0.175%

### More about the trailing commission

The trailing commission is an ongoing commission. Fidelity pays a trailing commission to all dealers, including discount brokers, for as long as you own the Fund. This is for services and advice that your representative and their firm provide to you. When these commissions are paid to discount brokers, they are for services and any tools or other assistance that your discount broker may offer.

The trailing commission is paid from the Fund's management fee and is based on the value of your investment.

TRAILING COMMISSION	
AS A PERCENT (%)	IN DOLLARS
Up to 1.000% of the value of your investment each year	\$0 to \$10.00 each year for every \$1,000 invested
