Lesson 6

Exit Ticket Reflection Sheet

1. From the stock market activity:
   a) Which order type offered the best price?

   b) Which order type is the safest in a falling market?

2. Think back to this scenario: "You've saved $500 and want to invest in a hot sneaker stock called Kicks Unlimited. The price is bouncing between $48 and $55."
   a) Which order would you use to buy Kicks Unlimited today and why?

   b) Which order is best for someone who's worried about losing money?
