Fidelity INVESTMENTS

MONEY GAINS MAKING IT COUNT

Lesson 6

Minds On activity

Scenario: You've saved **$200** from a part-time job. You're thinking of investing in a sneaker company called **Kicks Unlimited**. Each share costs **$50**, so you can buy **four shares**. Suddenly, the stock price starts to change. What do you do?

THINK: Individually, reflect on the scenario and what you would do. Write in full sentences!	
If the stock price **goes up to $55** per share, what would you do? Why?	
If the stock price **drops to $45** per share, what would you do? Why?	
Would you **buy now, wait or do something else**?	
What would help you **decide**?	

MONEY GAINS
MAKING IT COUNT

Lesson 6

POST-LESSON: You've saved **$200** from a part-time job. You're thinking of investing in a sneaker company called **Kicks Unlimited**. Each share costs **$50**, so you can buy **four shares**. Suddenly, the stock price starts to change. Now that you have completed the lesson, individually reflect on the scenario and what you would do differently now. If your answer changed, explain why!

If the stock price **goes up to $55** per share, what would you do? Why?	
If the stock price **drops to $45** per share, what would you do? Why?	
Would you **buy now, wait or do something else**?	
What would help you **decide**?
