

# Planning for retirement income

## FIVE KEY RISKS

### #1: Longevity

Retirees need to plan for possible longer life expectancies – you could spend as much time in retirement as you did at work. You need to plan for this so you don't outlive your savings.

**Read a fund's prospectus and consult your financial advisor before investing.** Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. Investors will pay management fees and expenses, may pay commissions or trailing commissions and may experience a gain or loss. The indicated rates of return are the historical annual compounded total returns including changes in unit value and the reinvestment of all distributions and do not take into account sales, redemption, distribution, optional charges or income taxes payable by any security holder that would have reduced returns. If you buy other series of Fidelity funds, the performance will vary largely due to different fees and expenses.

Investors who buy Series F pay investment management fees and expenses to Fidelity. Investors will also pay their dealer a fee for financial advice services in addition to the Series F fees charged by Fidelity. Views presented in this document are subject to change at any time, based upon markets and other conditions, and Fidelity disclaims any responsibility to update such views.
