

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.

PROSPECTUS

January 12, 2021

Initial Public Offering

This prospectus qualifies the distribution of series L units (the “**Units**”) of the following exchange-traded funds (each, a “**Fidelity ETF**” and, collectively, the “**Fidelity ETFs**”):

Fidelity ETFs

Balanced

Fidelity All-in-One Balanced ETF (FBAL)

Global Equity

Fidelity All-in-One Growth ETF (FGRO)

The Fidelity ETFs are exchange-traded funds established as unit trusts under the laws of the Province of Ontario.

Fidelity Investments Canada ULC (the “**Manager**”), a registered portfolio manager and investment fund manager, is the trustee, manager and portfolio manager of the Fidelity ETFs and is responsible for the administration of the Fidelity ETFs. See “**Organization and Management Details of the Fidelity ETFs – Manager of the Fidelity ETFs**” and “**Organization and Management Details of the Fidelity ETFs – Portfolio Manager**”.

The Manager, as portfolio manager of the Fidelity ETFs, has retained Geode Capital Management, LLC to act as sub-advisor to the Fidelity ETFs. See “**Organization and Management Details of the Fidelity ETFs – Sub-advisors**”.

Investment Objectives

Fidelity All-in-One Balanced ETF

Fidelity All-in-One Balanced ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

Fidelity All-in-One Growth ETF

Fidelity All-in-One Growth ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities with generally more emphasis on equity securities.

See “**Investment Objectives**”.

Listing of Units

Each Fidelity ETF issues Units on a continuous basis and there is no maximum number of Units that may be issued.

The NEO Exchange Inc. (the “**NEO Exchange**”) has conditionally approved the listing of the Units. Listing is subject to the Fidelity ETFs fulfilling all of the NEO Exchange’s listing requirements, including the minimum distribution requirement.

A holder of Units (“**Unitholder**”) may incur customary brokerage commissions in buying or selling Units. No fees are paid by a Unitholder to the Manager or the Fidelity ETFs in connection with the buying or selling of Units on the NEO Exchange or another exchange or marketplace. Unitholders may redeem Units in any whole number for cash for a redemption price per Unit of 95% of the closing price for the Units on the NEO Exchange on the effective day of the redemption, subject to a maximum redemption price of the applicable NAV per Unit (defined below), or may exchange a minimum of a Prescribed Number of Units (defined below) (and any additional multiple thereof) for, in the discretion of the Manager, securities and cash or only cash. Unitholders are advised to consult their brokers or investment advisers, and their tax advisers, before redeeming Units for cash. See “**Redemption of Units**”.

The Fidelity ETFs will issue Units directly to Designated Brokers and Dealers (each defined below).

Additional Considerations

No Dealer or Designated Broker has been involved in the preparation of the prospectus or has performed any review of the contents of the prospectus and, as such, the Dealers and the Designated Brokers do not perform many of the usual underwriting activities in connection with the distribution by the Fidelity ETFs of their Units under this prospectus.

For a discussion of the risks associated with an investment in Units of the Fidelity ETFs, see “**Risk Factors**”.

Registration of interests in, and transfer of, the Units will be made only through CDS Clearing and Depository Services Inc. Beneficial owners will not have the right to receive physical certificates evidencing their ownership.

Each Fidelity ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada.

The Units are not and will not be registered under the U.S. *Securities Act of 1933*, as amended. Subject to certain exceptions, the Units may not be offered or sold in the U.S. or offered or sold to U.S. persons. The Fidelity ETFs are not and will not be registered under, and the Manager is not registered under, the U.S. *Investment Company Act of 1940*, as amended.

Documents Incorporated by Reference

Additional information about each Fidelity ETF is available in the most recently filed ETF Facts, the most recently filed annual financial statements, if any, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance (“**MRFP**”), if any, and any interim MRFP filed after that annual MRFP. These documents are incorporated by reference into, and legally form an integral part of, this prospectus. These documents are publicly available on the Manager’s website at www.fidelity.ca and may be obtained upon request, at no cost, by calling 1-800-263-4077 or by contacting a registered dealer. These documents and other information about the Fidelity ETFs are also publicly available at www.sedar.com. See “**Documents Incorporated by Reference**” for further details.

IMPORTANT TERMS

Unless otherwise indicated, all references to dollar amounts in this prospectus are to Canadian dollars and all references to times in this prospectus are to Toronto time.

Accounting and Administrative Services Agreement – the accounting and administrative services agreement dated August 31, 2018, between the Manager and the Fund Administrator, as the same may be amended or restated from time to time.

ADRs – American depository receipts.

Basket of Securities – (A) a group of securities selected by the applicable Sub-advisor from time to time that collectively reflect the constituents of, and their weightings in, the portfolio of the Fidelity ETF, or (B) a group of securities selected by the applicable Sub-advisor from time to time.

business day – any day other than a Saturday, Sunday or a statutory holiday in Ontario, Canada.

Canadian securities legislation – the securities legislation in force in each province and territory of Canada, all regulations, rules, orders and policies made thereunder and all multilateral and national instruments adopted by the securities regulatory authorities, as the same may be amended, restated or replaced from time to time.

Capital Gains Refund – has the meaning ascribed thereto under “**Income Tax Considerations – Taxation of the Fidelity ETFs**”.

CDS – CDS Clearing and Depository Services Inc.

CDS Participant – a registered dealer or other financial institution that is a participant in CDS and that holds Units on behalf of beneficial owners of Units.

Commodity ETFs – exchange-traded funds that trade on a stock exchange in Canada or the U.S. the securities of which do not qualify as index participation units, as defined in NI 81-102, and that have exposure to one or more physical commodities, including, but not limited to, gold and silver on an unlevered basis.

Constituent Issuers – in relation to a particular Index, the issuers that are included from time to time in that Index as selected by the Index Provider.

Constituent Securities – in relation to a particular Index, the specific class or series of securities of the Constituent Issuers included in that Index, and may include ADRs, GDRs and other negotiable financial instruments that represent such securities.

CRA – the Canada Revenue Agency.

Custodian – State Street Trust Company Canada or its successor.

Custodian Agreement – the master custodial services agreement dated November 16, 2012, between, among others, the Fidelity ETFs, Fidelity Capital Structure Corp., the Custodian and State Street Bank and Trust Company, as the same may be amended or restated from time to time.

Cut-Off Time – in relation to each issuance or exchange of Units of a particular Fidelity ETF, the applicable time set out under “**Purchases of Units – Issuance of Units**”.

Dealer – a registered dealer (that may or may not be a Designated Broker) that has entered into a continuous distribution dealer agreement with the Manager, on behalf of one or more Fidelity ETFs, and that subscribes for and purchases Units from such Fidelity ETFs as described under “**Purchases of Units – Issuance of Units**”.

Declaration of Trust – the master declaration of trust establishing, among others, the Fidelity ETFs dated August 29, 2018, as the same may be amended or restated from time to time.

Designated Broker – a registered dealer that has entered into a designated broker agreement with the Manager, on behalf of one or more Fidelity ETFs, pursuant to which the Designated Broker agrees to perform certain duties in relation to those Fidelity ETFs.

distribution payment date – a date, which is no later than the tenth business day following the applicable distribution record date, on which a Fidelity ETF pays a distribution to its Unitholders.

distribution record date – a date designated by the Manager as a record date for the determination of Unitholders entitled to receive a distribution from a Fidelity ETF.

ETF Facts – a document that summarizes certain features of Units of a Fidelity ETF.

Fidelity ETFs – the exchange-traded funds listed from time to time on the front cover of this prospectus, each established as a trust under the laws of Ontario pursuant to the Declaration of Trust.

Fidelity Fixed Income ETFs – the Underlying Fidelity ETFs that invest their assets in fixed-income securities.

Fidelity Index ETFs – the Underlying Fidelity ETFs that invest their assets based on an index.

Fund Administrator – State Street Trust Company Canada or its successor.

GDRs – global depository receipts.

Geode – Geode Capital Management, LLC.

Geode Sub-advisory Agreement – the sub-advisory agreement dated August 31, 2018, between the Portfolio Manager and Geode, as the same may be amended or restated from time to time.

GST/HST – the taxes exigible under Part IX of the *Excise Tax Act* (Canada) and the regulations made thereunder.

IFRS – International Financial Reporting Standards.

Index/Indices – a benchmark or index, provided by the Index Provider, that is used by a Fidelity Index ETF in relation to the Fidelity Index ETF’s investment objective and includes, as required, a replacement or alternative benchmark or index that applies substantially similar criteria to those currently used by the Index Provider for the benchmark or index and/or a successor index that is generally comprised of, or would be generally comprised of, the same Constituent Securities as the benchmark or index.

Index License Agreement – the agreement pursuant to which the Manager licenses the Indices from the Index Provider for use by the Fidelity Index ETFs.

Index Provider – Fidelity Product Services LLC, which has assumed the obligations of FMR Co., Inc. effective December 31, 2019, with whom the Manager has entered into the Index License Agreement to use the Indices and certain related data in connection with the operation of the Fidelity Index ETFs.

IRC – the Independent Review Committee of, among others, the Fidelity ETFs.

Management Agreement – the master management and distribution agreement dated August 29, 2018 between Fidelity Investments Canada ULC, as trustee of, among others, the Fidelity ETFs, and the Manager, as the same may be amended or restated from time to time.

Management Fee Distributions – has the meaning ascribed thereto under “**Fees and Expenses Payable by the Fidelity ETFs – Management Fee Distributions**”.

Manager – Fidelity Investments Canada ULC, a corporation continued under the laws of Alberta, or its successor.

MRF – management report of fund performance, as defined in NI 81-106.

NAV and **NAV per Unit** – in relation to a particular Fidelity ETF, the aggregate net asset value of the Units of the Fidelity ETF and the net asset value per Unit, respectively, calculated by the Fund Administrator as described in “**Calculation of Net Asset Value**”.

NEO Exchange – the NEO Exchange Inc.

NI 81-102 – National Instrument 81-102 – *Investment Funds*, as the same may be amended, restated or replaced from time to time.

NI 81-106 – National Instrument 81-106 – *Investment Fund Continuous Disclosure*, as the same may be amended, restated or replaced from time to time.

NI 81-107 – National Instrument 81-107 – *Independent Review Committee for Investment Funds*, as the same may be amended, restated or replaced from time to time.

Plan Agent – State Street Trust Company Canada or its successor, as the plan agent under the Reinvestment Plan.

Plan Participant – a Unitholder that participates in the Reinvestment Plan.

Plan Units – additional Units acquired in the market by the Plan Agent under the Reinvestment Plan.

Portfolio Manager – Fidelity Investments Canada ULC, a corporation continued under the laws of Alberta, or its successor.

Prescribed Number of Units – in relation to a particular Fidelity ETF, the number of Units determined by the Manager from time to time for the purpose of subscription orders, exchanges, redemptions or for other purposes.

Registered Plans – registered retirement savings plans, registered retirement income funds, registered education savings plans, tax-free savings accounts, deferred profit sharing plans and registered disability savings plans.

Registrar and Transfer Agent – State Street Trust Company Canada or its successor.

Reinvestment Plan – means the distribution reinvestment plan offered by the Manager for the Fidelity ETFs.

Securities Lending Agent – State Street Bank and Trust Company or its successor.

Securities Lending Agreement – the agreement between, among others, the Fidelity ETFs, the Manager and the Securities Lending Agent, as the same may be amended or restated from time to time.

Securities regulatory authorities – the securities commission or similar regulatory authority in each province and territory of Canada that is responsible for administering the Canadian securities legislation in force in such province or territory.

SIFT trust – a specified investment flow-through trust within the meaning of the Tax Act.

Sub-advisor – Geode or its successors.

Sub-advisory Agreement – the Geode Sub-advisory Agreement.

Tax Act – the *Income Tax Act* (Canada) and the regulations issued thereunder, as amended from time to time.

third-tier funds - funds in which the Underlying Fidelity ETFs may hold directly or indirectly more than 10% of their net assets, including ETFs managed by other Fidelity entities and other funds managed by Fidelity.

Trading Day – means, for each Fidelity ETF, unless otherwise agreed by the Manager, a day on which (i) a session of the exchange on which the Units of the Fidelity ETF are listed is held; (ii) the primary market or exchange for the securities held by the Fidelity ETF is open for trading; and (iii) in the case of a Fidelity Index ETF, the Index Provider calculates and publishes data relating to the Index of the Fidelity Index ETF.

Underlying Fidelity ETFs – Fidelity exchange-traded funds offered under one or more separate prospectuses.

Unit – in relation to a particular Fidelity ETF, a redeemable, transferable series L unit of a Fidelity ETF, which represents an equal, undivided interest in that series' proportionate share of the assets of the Fidelity ETF.

Unitholder – a holder of one or more Units of a Fidelity ETF.

Valuation Date – each business day and any other day designated by the Manager on which the NAV and NAV per Unit of a Fidelity ETF is calculated.

Valuation Time – 4:00 p.m. (Toronto time) or such other time that the Manager deems appropriate on each Valuation Date.

PROSPECTUS SUMMARY

The following is a summary of the principal features of the Units of the Fidelity ETFs and should be read together with the more detailed information and statements contained elsewhere in this prospectus or incorporated by reference in this prospectus.

Issuers: **Fidelity ETFs**

Fidelity All-in-One Balanced ETF (FBAL)
Fidelity All-in-One Growth ETF (FGRO)

Each Fidelity ETF is an exchange-traded fund established as a trust under the laws of Ontario. Fidelity Investments Canada ULC is the trustee, manager and portfolio manager of the Fidelity ETFs.

Units: Each Fidelity ETF offers series L Units under this prospectus (the “Units”).

Continuous Distribution: Units of the Fidelity ETFs are being offered on a continuous basis and there is no maximum number of Units that may be issued.

The NEO Exchange has conditionally approved the listing of the Units of the Fidelity ETFs. Listing is subject to the Fidelity ETFs fulfilling all of the NEO Exchange’s listing requirements, including the minimum distribution requirement.

A Unitholder may incur customary brokerage commissions in buying or selling Units. No fees are paid by a Unitholder to the Manager or the Fidelity ETFs in connection with the buying or selling of Units on the NEO Exchange or another exchange or marketplace, as applicable. Unitholders may trade Units in the same way as other securities listed on the NEO Exchange, including by using market orders and limit orders.

The Fidelity ETFs will issue Units directly to Designated Brokers and Dealers. The initial issuance of Units of a Fidelity ETF to the Designated Broker will not occur until the Fidelity ETF has received, in aggregate, subscriptions sufficient to satisfy the original listing requirements of the NEO Exchange.

See “Purchases of Units – Issuance of Units” and “Purchases of Units – Buying and Selling Units”.

Investment Objectives:

Fidelity ETF	Investment Objectives
Fidelity All-in-One Balanced ETF	Fidelity All-in-One Balanced ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.
Fidelity All-in-One Growth ETF	Fidelity All-in-One Growth ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities with generally more emphasis on equity securities.

See “Investment Objectives”.

Investment Strategies:

Fidelity All-in-One Balanced ETF

In order to achieve its investment objective, the Sub-advisor of Fidelity All-in-One Balanced ETF generally follows a neutral mix guideline of approximately 60% global equity securities and approximately 40% global fixed income securities. The portfolio will be rebalanced annually. Additionally, if the portfolio deviates from its neutral mix by greater than 5% between annual rebalances, the portfolio will also be rebalanced. Such rebalancing activity may not occur immediately upon crossing that threshold but will occur shortly thereafter. Based on market activity, the portfolio may deviate from its neutral mix.

Fidelity All-in-One Growth ETF

In order to achieve its investment objective, the Sub-advisor of Fidelity All-in-One Growth ETF generally follows a neutral mix guideline of approximately 85% global equity securities and approximately 15% global fixed income securities. The portfolio will be rebalanced annually. Additionally, if the portfolio deviates from its neutral mix by greater than 5% between annual rebalances, the portfolio will also be rebalanced. Such rebalancing activity may not occur immediately upon crossing that threshold but will occur shortly thereafter. Based on market activity, the portfolio may deviate from its neutral mix.

See “**Investment Strategies**”.

Special Considerations for Purchasers:

The provisions of the so-called “early warning” reporting requirements in Canadian securities legislation do not apply if a person or company acquires 10% or more of the Units of a Fidelity ETF. The Fidelity ETFs have obtained exemptive relief to permit Unitholders to acquire more than 20% of the Units of any Fidelity ETF without regard to the takeover bid requirements of applicable Canadian securities legislation.

See “**Purchases of Units – Special Considerations for Unitholders**”.

Risk Factors:

There are certain general risk factors inherent in an investment in the Fidelity ETFs, including:

- (i) illiquidity risk;
- (ii) concentration risk;
- (iii) large-capitalization investing risk;
- (iv) mid-capitalization investing risk;
- (v) large transaction risk;
- (vi) absence of active market risk;
- (vii) trading price of Units risk;
- (viii) fluctuations in NAV risk;
- (ix) borrowing risk;
- (x) commodity risk;
- (xi) legislation risk;
- (xii) securities lending risk;
- (xiii) derivatives risk;
- (xiv) taxation risk;
- (xv) cease trading of securities risk;
- (xvi) halted trading of Units risk;
- (xvii) cyber security risk; and
- (xviii) series risk.

In addition to the general risk factors, the following additional risk factors are inherent in an investment in one or more of the Fidelity ETFs as indicated in the table below.

Fidelity ETF	Additional Risks
Fidelity All-in-One Balanced ETF	asset-backed securities and mortgage-backed securities risk; credit risk; currency risk; equity risk; exchange-traded fund risk; foreign investment risk; interest rate risk; portfolio management risk
Fidelity All-in-One Growth ETF	asset-backed securities and mortgage-backed securities risk; credit risk; currency risk; equity risk; exchange-traded fund risk; foreign investment risk; interest rate risk; portfolio management risk

See “**Risk Factors**”.

Income Tax Considerations:

Each year a Unitholder who is an individual (other than a trust) resident in Canada will generally be required to include in computing income for tax purposes the amount of any income and the taxable portion of any capital gains of a Fidelity ETF distributed to the Unitholder in the year (including any Management Fee Distributions), whether such amounts are paid in cash or reinvested in additional Units. A Unitholder will generally realize a capital gain (or loss) on the sale, redemption, exchange or other disposition of a Unit to the extent that the proceeds of disposition for the Unit exceed (or are less than) the total of the adjusted cost base to the Unitholder of the Unit and any reasonable costs of disposition.

Each investor should satisfy himself, herself, or itself as to the tax consequences of an investment in Units of a Fidelity ETF by obtaining advice from their tax advisor.

See “**Income Tax Considerations**”.

Exchanges and Redemptions:

In addition to the ability to sell Units on the NEO Exchange or another exchange or marketplace, as applicable, Unitholders may (i) redeem Units in any whole number for cash for a redemption price per Unit of 95% of the closing price for the Units on the NEO Exchange on the effective day of the redemption, subject to a maximum redemption price of the NAV per Unit, or (ii) exchange a minimum of a Prescribed Number of Units (and any additional multiple thereof) for, in the discretion of the Manager, Baskets of Securities and cash, only cash or other securities and cash.

See “**Redemption of Units**”.

Distributions

Cash distributions on Units of the Fidelity ETFs will be paid annually.

The Manager may, in its discretion, change the frequency of cash distributions, and will issue a press release if such a change is made. Cash distributions are expected to consist primarily of income but may, at the Manager’s discretion, include capital gains and/or returns of capital.

Each Fidelity ETF distributes a sufficient amount of its net income and net realized capital gains to Unitholders for each taxation year so that the Fidelity ETF will not be liable for ordinary income tax. To the extent that a Fidelity ETF has not otherwise distributed a sufficient amount of its net income or net realized capital gains, it will pay a distribution to Unitholders at the end of the year and that distribution will be automatically reinvested in additional Units. Immediately following such reinvestment, the number of Units outstanding will be consolidated so that the NAV per Unit following the distribution and reinvestment is the same as it would have been if the distribution had not been paid. The tax treatment to Unitholders of distributions is discussed under the heading “**Income Tax Considerations**”.

See “**Distribution Policy**”.

Distribution Reinvestment:

The Manager has implemented a Reinvestment Plan for the Fidelity ETFs under which cash distributions are used to acquire Plan Units in the market, which are then credited to the account of the Plan Participant through CDS. A Unitholder may elect to participate in the

Reinvestment Plan by contacting the CDS Participant through which the Unitholder holds his, her or its Units.

See “**Distribution Policy – Reinvestment Plan**”.

Termination: The Fidelity ETFs do not have a fixed termination date but may be terminated by the Manager upon not less than 60 days’ written notice to Unitholders.

See “**Termination of the Fidelity ETFs**”.

Documents Incorporated by Reference: Additional information about each Fidelity ETF is available in the most recently filed ETF Facts, the most recently filed annual financial statements, if any, any interim financial statements filed after those annual financial statements, the most recently filed annual MRFP, if any, and any interim MRFP filed after that annual MRFP. These documents are incorporated by reference into, and legally form an integral part of, this prospectus. These documents are publicly available on the Manager’s website at www.fidelity.ca and may be obtained upon request, at no cost, by calling 1-800-263-4077 or by contacting a registered dealer. These documents and other information about the Fidelity ETFs are also publicly available at www.sedar.com.

See “**Documents Incorporated by Reference**”.

Eligibility for Investment: The Units of a Fidelity ETF will be a “qualified investment” under the Tax Act for a Registered Plan at any time that the Fidelity ETF qualifies or is deemed to qualify as a “mutual fund trust” under the Tax Act or that the Units are listed on a “designated stock exchange” within the meaning of the Tax Act, which includes the NEO Exchange.

Investors should consult their own tax advisers for advice on whether Units of a Fidelity ETF would be a “prohibited investment” under the Tax Act for their Registered Plan.

See “**Eligibility for Investment**”.

ORGANIZATION AND MANAGEMENT OF THE FIDELITY ETFS

Manager: Fidelity Investments Canada ULC is the manager of the Fidelity ETFs and is responsible for managing the overall business of each of the Fidelity ETFs, including selecting the portfolio management team for each Fidelity ETF’s portfolio, providing each Fidelity ETF with accounting and administration services and promoting sales of each Fidelity ETF’s securities through financial advisers in each province and territory of Canada. The head office of the Fidelity ETFs and the Manager is located at 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7.

See “**Organization and Management Details of the Fidelity ETFs – Manager of the Fidelity ETFs**”.

Trustee: Fidelity Investments Canada ULC is the trustee of each Fidelity ETF pursuant to the Declaration of Trust and holds title to the assets of each Fidelity ETF in trust for the Unitholders.

See “**Organization and Management Details of the Fidelity ETFs – Trustee**”.

Portfolio Manager: Fidelity Investments Canada ULC has been appointed portfolio manager to the Fidelity ETFs. The Portfolio Manager provides investment management services with respect to the Fidelity ETFs. The Portfolio Manager has the authority to appoint sub-advisors to provide investment management services in respect of the Fidelity ETFs. The Portfolio Manager is responsible for the investment advice provided by the Sub-advisors.

See “**Organization and Management Details of the Fidelity ETFs – Portfolio Manager**”.

Sub-advisors: Fidelity Investments Canada ULC, acting as portfolio manager of the Fidelity ETFs, has retained Geode Capital Management, LLC to act as sub-advisor to the Fidelity ETFs. Geode is a registered investment adviser in the United States with offices based in Boston, Massachusetts. Geode manages the investment portfolios of these Fidelity ETFs, provides analysis and makes investment and, if applicable, rebalancing decisions.

The Portfolio Manager is responsible for the investment advice that Geode provides to the Fidelity ETFs. As Geode is resident outside of Canada, and all or a substantial portion of its assets are situated outside of Canada, there may be difficulty in enforcing any legal rights against it.

See “**Organization and Management Details of the Fidelity ETFs – Sub-advisors**”.

Promoter: Fidelity Investments Canada ULC has taken the initiative in founding and organizing the Fidelity ETFs and is, accordingly, the promoter of the Fidelity ETFs within the meaning of securities legislation of certain provinces and territories of Canada.

See “**Organization and Management Details of the Fidelity ETFs – Promoter**”.

Custodian: The Manager has retained the services of State Street Trust Company Canada, at its principal offices in Toronto, Ontario, to act as the custodian of the assets of the Fidelity ETFs and to hold those assets in safekeeping.

See “**Organization and Management Details of the Fidelity ETFs – Custodian**”.

Securities Lending Agent: The Manager has retained the services of State Street Bank and Trust Company to act as the securities lending agent of the Fidelity ETFs.

See “**Organization and Management Details of the Fidelity ETFs – Securities Lending Agent**”.

Registrar and Transfer Agent: The Manager has retained the services of State Street Trust Company Canada to act as the registrar and transfer agent for the Units of the Fidelity ETFs and to maintain the register of registered Unitholders. The register of the Fidelity ETFs is kept in Toronto, Ontario.

See “**Organization and Management Details of the Fidelity ETFs – Registrar and Transfer Agent**”.

Auditor: PricewaterhouseCoopers LLP, at its principal offices in Toronto, Ontario, is the auditor of the Fidelity ETFs. The auditor audits each Fidelity ETF’s annual financial statements and provides an opinion as to whether they present fairly the Fidelity ETF’s financial position, financial performance and cash flows in accordance with International Financial Reporting Standards. The auditor is independent of the Manager.

See “**Organization and Management Details of the Fidelity ETFs – Auditor**”.

Fund Administrator: The Manager has retained the services of State Street Trust Company Canada, at its principal offices in Toronto, Ontario, to act as the fund administrator. The Fund Administrator is responsible for certain aspects of the day-to-day administration of the Fidelity ETFs, including NAV calculations, accounting for net income and net realized capital gains of the Fidelity ETFs and maintaining books and records with respect to each Fidelity ETF.

See “**Organization and Management Details of the Fidelity ETFs – Fund Administrator**”.

SUMMARY OF FEES AND EXPENSES

The following sets out the fees and expenses that a Unitholder may have to pay if the Unitholder invests in the Fidelity ETFs. A Unitholder may have to pay some of these fees and expenses directly. The Fidelity ETFs may have to pay some of these fees and expenses, which will therefore reduce the value of an investment in the Fidelity ETFs.

See “Fees and Expenses”.

Fees and Expenses Payable by the Fidelity ETFs

Type of Fee

Amount and Description

Management Fee:

The management fees directly payable to the Manager by each Fidelity ETF are nil. However, the Underlying Fidelity ETFs held by the Fidelity ETFs will pay management fees and will incur trading expenses.

The management fee covers certain of the Manager’s fees and costs associated with acting as the manager and the portfolio manager of the applicable Fidelity ETF, the fees paid to the applicable Sub-advisor(s) and the other expenses described below that are payable by the Manager in connection with each Fidelity ETF. See “Fees and Expenses Payable Directly by the Manager”.

Based on the management fees of the Underlying Fidelity ETFs set out under “Investment Strategies”, and the initial anticipated weightings in each of Fidelity All-in-One Balanced ETF and Fidelity All-in-One Growth ETF, it is expected that the effective, indirect management fee incurred will be approximately 0.35% and 0.37%, respectively. The actual effective, indirect management fee will differ from that based on the performance of each Underlying Fidelity ETF within a Fidelity ETF and rebalancing events initiated by the Sub-advisor. Actual indirect management fees will be reflected in the management expense ratio (in addition to applicable taxes and expenses listed below) of each Fidelity ETF, posted semi-annually.

Subject to the disclosure below under “Certain Expenses”, the Manager pays all of the operating and administrative expenses incurred by the ETFs. As a result, each Fidelity ETF will incur a management expense ratio that is a proportionate blend of the management expense ratios of the Underlying Fidelity ETFs.

Certain Expenses:

In addition to the applicable management fee, the only expenses payable by each Fidelity ETF are: (i) the fees and expenses relating to the operation of the IRC; (ii) portfolio transaction costs, including brokerage commissions and other securities transaction related expenses, including the costs of derivatives and foreign exchange transactions; (iii) interest and borrowing costs; (iv) any new fee related to external services that is not commonly charged in the Canadian exchange-traded fund industry as of the date of creation of the Fidelity ETF; (v) the costs of complying with any new regulatory requirement, including any new fee introduced after the date of creation of the Fidelity ETF; and (vi) any applicable taxes, including income, withholding or other taxes, and also including applicable GST/HST on expenses.

The Manager may decide, in its discretion, to pay some of these expenses, rather than having the Fidelity ETFs incur such expenses. The Manager is under no obligation to do so and, if any expense is reimbursed by the Manager, it may discontinue this practice at any time.

Fund of Funds:

A Fidelity ETF may, in accordance with applicable securities laws, invest in the Underlying Fidelity ETFs, other investment funds managed by the Manager or its affiliates and other exchange-traded funds managed by third parties. With respect to such investments, no management or incentive fees are payable by the Fidelity ETF that, to a reasonable person, would duplicate a fee payable by the other investment funds for

the same service. Where a Fidelity ETF invests in an Underlying Fidelity ETF or other investment fund managed by the Manager or its affiliates, such other fund pays a management fee to the Manager or its affiliates in respect of such investment and the Fidelity ETF does not pay any additional management fees to the Manager. **As the Fidelity ETFs do not pay any management fees directly to the Manager, no management fees payable by a Fidelity ETF would duplicate a fee payable by the Underlying Fidelity ETF for the same service. Each Fidelity ETF will pay the applicable management fees of the Underlying Fidelity ETF that each owns. As a result, the actual aggregate management fees indirectly payable to the Manager in respect of a Fidelity ETF will be greater than nil.**

Where a Fidelity ETF invests in an exchange-traded fund or other investment fund that is not managed by the Manager or its affiliate, the fees and expenses payable in connection with the management of that exchange-traded fund, including management and incentive fees, are not duplicative and are in addition to those payable by the Fidelity ETF. No sales or redemption fees are payable by the Fidelity ETF in relation to any purchase or redemption of the securities of such investment funds. Commissions may apply to the purchase or sale of exchange-traded fund securities.

Fees and Expenses Payable Directly by the Manager

Type of Fee

Amount and Description

Other Expenses:

Other than the expenses payable by the Fidelity ETFs, as described above, the Manager is responsible for all of the other costs and expenses of the Fidelity ETFs. These costs and expenses include, but are not limited to: (i) transfer agency fees; (ii) legal, audit and custodial fees; (iii) administrative costs and trustee services relating to registered tax plans; (iv) filing, listing and other regulatory fees; and (v) the costs of preparing and distributing the Fidelity ETFs' financial reports, prospectus, ETF Facts and the other investor communications that the Manager is required to prepare to comply with applicable laws.

Fees and Expenses Payable Directly by Unitholders

Type of Fee

Amount and Description

Other Charges:

An amount may be charged to a Designated Broker or Dealer to offset certain transaction and other costs associated with the listing, issue, exchange and/or redemption of Units of a Fidelity ETF. This charge, which is payable to the applicable Fidelity ETF, does not apply to Unitholders who buy and sell their Units through the facilities of the NEO Exchange or another exchange or marketplace. See "**Purchases of Units**" and "**Redemption of Units**".

See "**Fees and Expenses**".

OVERVIEW OF THE LEGAL STRUCTURE OF THE FIDELITY ETFS

The Fidelity ETFs are exchange-traded funds established as unit trusts under the laws of the Province of Ontario. The Fidelity ETFs have been established pursuant to the Declaration of Trust.

While each Fidelity ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada, each Fidelity ETF has obtained exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds.

The head office of each of the Fidelity ETFs and the Manager is located at 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7.

INVESTMENT OBJECTIVES

Fidelity All-in-One Balanced ETF

Fidelity All-in-One Balanced ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

Fidelity All-in-One Growth ETF

Fidelity All-in-One Growth ETF aims to achieve capital growth through total returns by using a strategic asset allocation approach. It invests primarily in Underlying Fidelity ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities with generally more emphasis on equity securities.

INVESTMENT STRATEGIES

Fidelity All-in-One Balanced ETF

In order to achieve its investment objective, the Sub-advisor of Fidelity All-in-One Balanced ETF generally follows a neutral mix guideline of approximately 60% global equity securities and approximately 40% global fixed income securities. The portfolio will be rebalanced annually. Additionally, if the portfolio deviates from its neutral mix by greater than 5% between annual rebalances, the portfolio will also be rebalanced. Such rebalancing activity may not occur immediately upon crossing that threshold but will occur shortly thereafter. Based on market activity, the portfolio may deviate from its neutral mix.

The Fidelity ETF invests in Underlying Fidelity ETFs. The equity portion will include Fidelity Index ETFs that offer exposure to North American and developed international equities. The fixed income portion will include Fidelity Fixed Income ETFs that offer exposure to a wide variety of fixed income securities, including Canadian and global investment grade fixed income securities, high yield securities and floating rate debt instruments.

The Underlying Fidelity ETFs may each invest more than 10% of its net asset value in other underlying funds managed by Fidelity. These other underlying funds are third-tier funds for the Fidelity ETF. The Sub-advisor of the Fidelity ETF may change the Underlying Fidelity ETFs invested in, or the percentage of this Fidelity ETF's assets invested in, any particular Underlying Fidelity ETF at any time. The sub-advisors of the Underlying Fidelity ETFs may change the third-tier funds invested in, or the percentage of the Underlying Fidelity ETFs' assets invested in, any particular third-tier fund at any time.

Portfolio management responsibility regarding the selection of any third-tier funds and other assets held by the Underlying Fidelity ETFs is at the level of the Underlying Fidelity ETF. Portfolio management responsibility regarding the selection of the assets held by the third-tier fund is at the level of any third-tier fund.

This Fidelity ETF, any Underlying Fidelity ETFs, and any third-tier funds may depart from their investment objectives or strategies by temporarily investing all or a portion of their assets in cash or fixed income securities issued or

guaranteed by a Canadian or U.S. government, government agency or company. The Sub-Advisor of the Fidelity ETF may take this action in the event there is a cease-trade order against it or an Underlying Fidelity ETF.

Fidelity All-in-One Growth ETF

In order to achieve its investment objective, the Sub-advisor of Fidelity All-in-One Growth ETF generally follows a neutral mix guideline of approximately 85% global equity securities and approximately 15% global fixed income securities. The portfolio will be rebalanced annually. Additionally, if the portfolio deviates from its neutral mix by greater than 5% between annual rebalances, the portfolio will also be rebalanced. Such rebalancing activity may not occur immediately upon crossing that threshold but will occur shortly thereafter. Based on market activity, the portfolio may deviate from its neutral mix.

The Fidelity ETF invests in Underlying Fidelity ETFs. The equity portion will include Fidelity Index ETFs that offer exposure to North American and developed international equities. The fixed income portion will include Fidelity Fixed Income ETFs that offer exposure to a wide variety of fixed income securities, including Canadian and global investment grade fixed income securities, high yield securities and floating rate debt instruments.

The Underlying Fidelity ETFs may each invest more than 10% of its net asset value in other underlying funds managed by Fidelity. These other underlying funds are third-tier funds for the Fidelity ETF. The Sub-advisor of the Fidelity ETF may change the Underlying Fidelity ETFs invested in, or the percentage of this Fidelity ETF's assets invested in, any particular Underlying Fidelity ETF at any time. The sub-advisors of the Underlying Fidelity ETFs may change the third-tier funds invested in, or the percentage of the Underlying Fidelity ETFs' assets invested in, any particular third-tier fund at any time.

Portfolio management responsibility regarding the selection of any third-tier funds and other assets held by the Underlying Fidelity ETFs is at the level of the Underlying Fidelity ETF. Portfolio management responsibility regarding the selection of the assets held by the third-tier fund is at the level of any third-tier fund.

This Fidelity ETF, any Underlying Fidelity ETFs, and the third-tier funds may depart from their investment objectives or strategies by temporarily investing all or a portion of their assets in cash or fixed income securities issued or guaranteed by a Canadian or U.S. government, government agency or company. The Sub-Advisor of the Fidelity ETF may take this action in the event there is a cease-trade order against it or an Underlying Fidelity ETF.

The Fidelity ETFs

Each of the Fidelity ETFs will initially invest in the following Underlying Fidelity ETFs:

	Management fee	Strategic Allocation	
		FBAL	FGRO
Fidelity Canadian Low Volatility Index ETF	0.35%	3.75%	5.31%
Fidelity U.S. Low Volatility Index ETF	0.35%	7.50%	10.63%
Fidelity International Low Volatility Index ETF	0.45%	3.75%	5.31%
Fidelity Canadian High Quality Index ETF	0.35%	3.75%	5.31%
Fidelity U.S. High Quality Index ETF	0.35%	7.50%	10.63%
Fidelity International High Quality Index ETF	0.45%	3.75%	5.31%
Fidelity Canadian Value Index ETF	0.35%	3.75%	5.31%
Fidelity U.S. Value Index ETF	0.35%	7.50%	10.63%
Fidelity International Value Index ETF	0.45%	3.75%	5.31%
Fidelity Canadian Momentum Index ETF	0.35%	3.75%	5.31%
Fidelity U.S. Momentum Index ETF	0.35%	7.50%	10.63%
Fidelity International Momentum Index ETF	0.45%	3.75%	5.31%

	Management fee	Strategic Allocation	
		FBAL	FGRO
Fidelity Systematic Canadian Bond Index ETF	0.25%	30.0%	11.25%
Fidelity Global Core Plus Bond ETF	0.50%	10.0%	3.75%

The Underlying Fidelity ETFs are subject to change at the discretion of the Sub-advisor. Those listed above may be removed from a Fidelity ETF's portfolio and other Underlying Fidelity ETFs not listed above may be added. Portfolio weightings are disclosed in the interim and annual management reports of fund performance and in the quarterly portfolio disclosure report.

Additional Investment Strategies of the Fidelity ETFs

Securities Lending Transactions

A Fidelity ETF may, in compliance with NI 81-102, lend securities to securities borrowers acceptable to it pursuant to the terms of a securities lending agreement between the Securities Lending Agent and any such borrower under which: (i) the borrower will pay to the Fidelity ETF a negotiated securities lending fee and will make compensation payments to the Fidelity ETF equal to any distributions received by the borrower on the securities borrowed; (ii) the securities loans must qualify as "securities lending arrangements" for the purposes of the Tax Act; and (iii) the Fidelity ETF will receive collateral security.

Securities lending transactions may be utilized by a Fidelity ETF to provide incremental return to the Fidelity ETF or to generate income for the purposes of meeting its current obligations. Any securities lending transaction entered into by a Fidelity ETF must be consistent with the investment objectives of the Fidelity ETF.

Under applicable securities legislation, the collateral posted by the securities borrower is required to have an aggregate value of not less than 102% of the market value of the loaned securities. The total value of the securities loaned by a Fidelity ETF at any time is not permitted to exceed 50% of the NAV of the Fidelity ETF (excluding any collateral received from securities lending activities). Any cash collateral acquired by a Fidelity ETF may be invested only in the securities permitted under NI 81-102 that have a remaining term to maturity of no longer than 90 days. The securities lending agent is responsible for the ongoing administration of the securities loans, including the obligation to mark-to-market the collateral on a daily basis.

Use of Derivative Instruments

A Fidelity ETF may use derivative instruments from time to time for hedging or investment purposes. Any use of derivative instruments by a Fidelity ETF must be in compliance with NI 81-102 and any exemptive relief obtained by the Fidelity ETF from the requirements of NI 81-102 and must be consistent with the investment objectives and investment strategies of the Fidelity ETF.

The derivatives most likely to be used by the Fidelity ETFs are options, forwards, futures or swaps. If a Fidelity ETF purchases an option, it has the right, but not the obligation, to buy or sell the underlying interest at an agreed price within a certain time period. A purchased call option gives the Fidelity ETF the right to buy; a purchased put option gives the Fidelity ETF the right to sell. If a Fidelity ETF writes an option, it has the obligation, at the election of the holder of the option, to buy or sell the underlying interest at an agreed price within a certain time period. A written call option obliges the Fidelity ETF to sell if the option is exercised; a written put option obliges the Fidelity ETF to purchase if the option is exercised. A forward is a commitment to buy or sell the underlying interest for an agreed price on a future date. A future is similar to a forward, except that futures are traded on exchanges. A swap is a commitment to exchange one set of payments for another set of payments.

Cash Management

From time to time, a Fidelity ETF may receive or hold surplus cash. The Fidelity ETF may temporarily hold this cash or invest it in money market instruments or other cash management investment vehicles managed by the Manager or

an affiliate of the Manager. Alternatively, the Fidelity ETF may use the cash to pay those expenses that the Fidelity ETF is responsible for paying, to purchase additional Baskets of Securities or portions thereof or to increase the notional amount under its derivative instruments, as applicable.

From time to time, a Fidelity ETF or an Underlying Fidelity ETF in which a Fidelity ETF invests may depart from its investment objective or strategies by temporarily investing all or a portion of its assets in cash or fixed income securities issued or guaranteed by a Canadian or U.S. government, government agency or company. The applicable Sub-advisor may take this action to try to protect the Fidelity ETF or Underlying Fidelity ETF during a market downturn, or for other reasons.

OVERVIEW OF THE SECTORS IN WHICH THE FIDELITY ETFS INVEST

The Fidelity ETFs invest in Underlying Fidelity ETFs that invest in equity securities and fixed income securities. There are many general factors that can impact the market price of an equity security. These factors include specific developments relating to the company that issued the securities, conditions in the market where the securities are traded, and general economic, financial and political conditions in the country or countries where the company operates. There are many factors that can impact the price of a fixed-income security, such as interest rate fluctuations, changes in the financial condition of an issuer, market liquidity conditions and other market circumstances. The value of equity securities generally tends to change more frequently and varies more widely than the value of fixed-income securities.

INVESTMENT RESTRICTIONS

The Fidelity ETFs are subject to certain restrictions and practices contained in securities legislation, including NI 81-102. The Fidelity ETFs are managed in accordance with these restrictions and practices, except as otherwise permitted by exemptions obtained from the Canadian securities regulatory authorities (see “**Exemptions and Approvals**”). A change to the investment objective of a Fidelity ETF would require the approval of the Unitholders. Please see “**Unitholder Matters – Matters Requiring Unitholders Approval**”.

Each Fidelity ETF is also restricted from making an investment or undertaking an activity that would result in such Fidelity ETF failing to qualify as a “mutual fund trust” for the purposes of the Tax Act. In addition, no Fidelity ETF may invest in any property or engage in any undertaking that would cause the Fidelity ETF to have “non-portfolio earnings” as defined in section 122.1 of the Tax Act in an amount that would result in the Fidelity ETF paying a material amount of income tax.

Exemptions and Approvals

The Fidelity ETFs have obtained exemptive relief from the Canadian securities regulatory authorities to permit:

- (i) the purchase by a Unitholder of more than 20% of the Units of any Fidelity ETF without regard to the takeover bid requirements of applicable Canadian securities legislation;
- (ii) a Fidelity ETF to borrow cash in an amount not exceeding 5% of the net assets of the Fidelity ETF for a period not longer than 45 days and, if required by the lender, to provide a security interest over any of its portfolio assets as a temporary measure to fund the portion of any distribution payable to Unitholders that represents amounts that have not yet been received by the Fidelity ETF; and
- (iii) the Fidelity ETFs to prepare a prospectus without including a certificate of an underwriter.

In addition, each Fidelity ETF may rely on exemptive relief obtained by Fidelity’s mutual funds to permit them to:

- (i) invest up to 10% of a Fidelity ETF’s NAV in precious metals and other physical commodities on an unlevered basis through Commodity ETFs and derivatives; and

- (ii) use additional assets to cover a Fidelity ETF's market exposure: (i) when opening or maintaining a long position in a debt-like security that has a component that is a long position in a forward contract, or in a standardized future or forward contract; and (ii) when entering into or maintaining a swap position.

Independent Review Committee Policies and Procedures

The IRC reviews and, where appropriate, arranges for periodic reporting on each of the following conflict of interest matters referred to it by the Manager. The Manager has received standing instructions from the IRC to apply the following policies, related to the Fidelity ETFs or the Manager in accordance with their terms.

	POLICY	DESCRIPTION
1	Code of Ethics /Personal Investing	This policy governs the personal investing and other activities of employees of the Manager and certain of its affiliates.
2	Business Entertainment and Workplace Gifts	This policy governs the provision and acceptance of gifts and business entertainment by employees of the Manager and certain of its affiliates.
3	Trade Allocation	This policy governs the allocation of trades of portfolio securities between Fidelity ETFs or client accounts when more than one Fidelity ETF or client account is buying or selling securities of a particular issuer at the same time.
4	Best Execution and Fair Trading	This policy addresses the quality of execution of trades of portfolio securities or foreign exchange trades by brokers, including both 3 rd party brokers and brokers affiliated to the Manager, on behalf of the Fidelity ETFs.
5	Trade Errors	This policy governs the correction of errors made in executing trades of portfolio securities on behalf of a Fidelity ETF, including the resolution of errors taking place as the Fidelity ETFs seek to repatriate foreign currencies to their working currency or hedge currency exposure.
6	Proxy Voting	The Fidelity ETFs own portfolio securities and therefore the right to vote proxies. This policy governs the voting of proxies.
7	NAV Calculation and Fair Value	This policy governs the calculation of a Fidelity ETF's net asset value per share (NAV), including situations where market quotations for a portfolio security are not readily available or when market quotations are unreliable, in which case the Manager will calculate the NAV using the fair value of that security.
8	NAV Error Correction	This policy governs the correction of errors made in calculating a Fidelity ETF's NAV.
9	Side-by-side	This policy addresses the side-by-side management of different types of accounts, including accounts that invest on a long-only basis – that is, buy securities – and accounts that may also invest on a short basis – that is, sell securities that they don't own, in the hope of repurchasing them later at a lower price.
10	Purchase of Securities Underwritten by an Affiliate	This policy governs investments by the Fidelity ETFs in a class of securities of an issuer during a distribution (i.e., an offering), or within 60 days of a distribution, of those securities where an affiliate of the Manager acts as an underwriter of the offering.
11	Disclosure of Portfolio Information	This policy governs the manner and timelines regarding the disclosure of Fidelity ETF portfolio information.
12	Complaints	This policy governs the process for managing and resolving complaints received from investors in the Fidelity ETFs.
13	Retail Benchmarks	This policy governs the process for selecting and changing performance benchmarks of the Fidelity ETFs.

	POLICY	DESCRIPTION
14	<i>In specie</i> Transactions	This policy governs the process of transferring portfolio assets between the Fidelity ETFs, pooled funds and managed accounts, all of which are managed or advised by the Manager.
15	Co-Investing Conflicts	This policy addresses potential conflicts of interest where a Fidelity ETF may desire to invest in a company in which another Manager entity wishes to make a simultaneous investment or has a pre-existing interest.
16	Fund Mergers	This policy addresses potential conflicts of interest that may arise in fund mergers involving the Fidelity ETFs.

FEES AND EXPENSES

This section details the fees and expenses that a Unitholder may have to pay if the Unitholder invests in the Fidelity ETFs. A Unitholder may have to pay some of these fees and expenses directly. The Fidelity ETFs may have to pay some of these fees and expenses, which will therefore reduce the value of an investment in the Fidelity ETFs.

Fees and Expenses Payable by the Fidelity ETFs

Management Fee

The management fees directly payable to the Manager by each Fidelity ETF are nil. However, the Underlying Fidelity ETFs held by the Fidelity ETFs will pay management fees and will incur trading expenses.

The management fee covers certain of the Manager’s fees and costs associated with acting as the manager and the portfolio manager of the applicable Fidelity ETF, the fees paid to the Sub-advisors and the other expenses described below that are payable by the Manager in connection with each Fidelity ETF.

Based on the management fees of the Underlying Fidelity ETFs set out under “**Investment Strategies**”, and the initial anticipated weightings in each of Fidelity All-in-One Balanced ETF and Fidelity All-in-One Growth ETF, it is expected that the effective, indirect management fee incurred will be approximately 0.35% and 0.37%, respectively. The actual effective, indirect management fee will differ from that based on the performance of each Underlying Fidelity ETF within a Fidelity ETF and rebalancing events initiated by the Sub-advisor. Actual indirect management fees will be reflected in the management expense ratio (in addition to applicable taxes and expenses listed below) of each Fidelity ETF, posted semi-annually.

Subject to the disclosure below under “**Certain Expenses**”, the Manager pays all of the operating and administrative expenses incurred by the ETFs. As a result, each Fidelity ETF will incur a management expense ratio that is a proportionate blend of the management expense ratios of the Underlying Fidelity ETFs.

From time to time the Manager may decide, in its discretion, to waive a portion of the management fees. The Manager is under no obligation to do so and, if any portion of a management fee is waived by the Manager, it may discontinue this practice at any time without notice.

Management Fee Distributions

In respect of large investments in a Fidelity ETF by a particular Unitholder or for other purposes, the Manager may, in its discretion, agree to charge the Fidelity ETF a reduced management fee as compared to the management fee that it otherwise would be entitled to receive, provided that an amount equal to the reduction in the management fee is distributed periodically by the Fidelity ETF to the Unitholder as a special distribution (the “**Management Fee Distribution**”). Management Fee Distributions, if any, will be paid first out of net income and net realized capital gains of a Fidelity ETF and then out of capital. The availability, amount and timing of Management Fee Distributions with respect to Units of a particular Fidelity ETF will be determined from time to time by the Manager in its sole discretion. The Manager reserves the right to discontinue or change this management fee distribution program at any

time. The tax consequences of a Management Fee Distribution will generally be borne by the Unitholder who receives the distribution.

Certain Expenses

In addition to the applicable management fee, the only expenses payable by each Fidelity ETF are: (i) the fees and expenses relating to the operation of the IRC; (ii) portfolio transaction costs, including brokerage commissions and other securities transaction related expenses, including the costs of derivatives and foreign exchange transactions; (iii) interest and borrowing costs; (iv) any new fee related to external services that is not commonly charged in the Canadian exchange-traded fund industry as of the date of creation of the Fidelity ETF; (v) the costs of complying with any new regulatory requirement, including any new fee introduced after the date of creation of the Fidelity ETF; and (vi) any applicable taxes, including income, withholding or other taxes, and also including applicable GST/HST on expenses.

The Manager may decide, in its discretion, to pay some of these expenses, rather than having the Fidelity ETFs incur such expenses. The Manager is under no obligation to do so and, if any expense is reimbursed by the Manager, it may discontinue this practice at any time.

Fund of Funds

A Fidelity ETF may, in accordance with applicable securities laws, invest in other Fidelity ETFs, other investment funds managed by the Manager or its affiliates and other exchange-traded funds managed by third parties. These other Fidelity ETFs and other investment funds managed by the Manager may, in turn, invest in other investment funds. With respect to such investments, no management or incentive fees are payable by the Fidelity ETF or such other investment funds that, to a reasonable person, would duplicate a fee payable by the other investment funds for the same service. Where a Fidelity ETF invests in an Underlying Fidelity ETF or other investment fund managed by the Manager or its affiliates, such other fund pays a management fee to the Manager or its affiliates in respect of such investment and the Fidelity ETF does not pay any additional management fees to the Manager. **As the Fidelity ETFs do not pay any management fees directly to the Manager, no management fees payable by a Fidelity ETF would duplicate a fee payable by the Underlying Fidelity ETF for the same service. Each Fidelity ETF will pay the applicable management fees of the Underlying Fidelity ETF that each owns. As a result, the actual aggregate management fees indirectly payable to the Manager in respect of a Fidelity ETF will be greater than nil.**

Where a Fidelity ETF invests in exchange-traded funds or other investment funds that are not managed by the Manager or its affiliates, the fees and expenses payable in connection with the management of those exchange-traded funds, including management and incentive fees, are not duplicative and are in addition to those payable by the Fidelity ETF. No sales or redemption fees are payable by the Fidelity ETF in relation to any purchase or redemption of the securities of such investment funds. Commissions may apply to the purchase or sale of exchange-traded fund securities.

Fees and Expenses Payable Directly by the Manager

Other Expenses

Other than the expenses payable by the Fidelity ETFs, as described above, the Manager is responsible for all of the other costs and expenses of the Fidelity ETFs. These costs and expenses include, but are not limited to: (i) transfer agency fees; (ii) legal, audit and custodial fees; (iii) administrative costs and trustee services relating to registered tax plans; (iv) filing, listing and other regulatory fees; and (v) the costs of preparing and distributing the Fidelity ETFs' financial reports, prospectus, ETF Facts and the other investor communications that the Manager is required to prepare to comply with applicable laws.

Fees and Expenses Payable Directly by Unitholders

Other Charges

An amount may be charged to a Designated Broker or Dealer to offset certain transaction and other costs associated with the listing, issue, exchange and/or redemption of Units of a Fidelity ETF. This charge, which is payable to the

applicable Fidelity ETF, does not apply to Unitholders who buy and sell their Units through the facilities of the NEO Exchange or another exchange or marketplace. See “**Purchases of Units**” and “**Redemption of Units**”.

RISK FACTORS

In addition to the considerations set out elsewhere in this prospectus, the following are certain considerations relating to an investment in Units. These considerations also apply to an investment in an Underlying Fidelity ETF. For purposes of this section, a reference to a Fidelity ETF includes an Underlying Fidelity ETF.

General Risks Relating to an Investment in the Fidelity ETFs

Illiquidity Risk

A security is illiquid if it cannot be readily sold at an amount that at least approximates the amount at which the security is valued. Most securities held in an exchange-traded fund are liquid, but there are some investments that cannot be sold easily or quickly.

Securities can be illiquid for a number of reasons, including: (i) legal rules may restrict the ability to sell them; (ii) the securities might have features that make them difficult to sell; (iii) there may be a shortage of buyers; (iv) the securities might suddenly become illiquid because of sudden changes in the market; and (v) an individual security’s liquidity may simply change over time.

If a Fidelity ETF is unable to dispose of some or all of the securities held by it, that Fidelity ETF may experience a delay in the receipt of the proceeds of disposition until such time as it is able to dispose of such securities. Likewise, in the case of the Fidelity Index ETFs, if certain Constituent Securities of the applicable Index are particularly illiquid, the relevant Sub-advisor may be unable to acquire the number of securities necessary to replicate the weighting of such Constituent Securities in the Index at a price acceptable to the relevant Sub-advisor on a timely basis.

Concentration Risk

A Fidelity ETF may concentrate its investments by (i) investing a large portion of its net assets in relatively few companies, (ii) investing in a particular industry or geographic region, or (iii) in the case of a Fidelity Index ETF, holding more than 10% of its net assets in securities of a single issuer. A relatively high concentration of assets in, or exposure to, a particular company, industry or geographic region may reduce the diversification of a Fidelity ETF, and may result in increased volatility in the Fidelity ETF’s NAV.

Large-Capitalization Investing Risk

A Fidelity ETF may invest a relatively large percentage of its assets in the securities of large-capitalization companies. As a result, the performance of a Fidelity ETF may be adversely affected if securities of large-capitalization companies underperform securities of smaller-capitalization companies or the market as a whole. The securities of large-capitalization companies may be relatively mature compared to smaller companies and therefore subject to slower growth during times of economic expansion.

Mid-Capitalization Investing Risk

A Fidelity ETF may invest in securities of mid-capitalization companies. As a result, the performance of a Fidelity ETF may be adversely affected if securities of mid-capitalization companies underperform securities of other capitalization ranges or the market as a whole. Securities of smaller companies are often more vulnerable to market volatility than securities of larger companies.

Large Transaction Risk

The Units may be bought by other mutual funds, investment funds or segregated funds, including mutual funds managed by the Manager, financial institutions in connection with other investment offerings and/or investors who

participate in an asset allocation program or model portfolio program. There is a risk that these investments may become large, resulting in large purchases and redemptions of Units. Other investors may also purchase large amounts of a Fidelity ETF. Large purchases and redemptions may result in: (i) a Fidelity ETF maintaining an abnormally high cash balance; (ii) large sales of portfolio securities, impacting market value; (iii) increased transaction costs (e.g., commissions); and (iv) capital gains being realized, which may increase taxable distributions to investors.

If this should occur, the returns of investors, including other funds, that invest in the Fidelity ETFs may also be adversely affected.

Absence of Active Market Risk

Although the Fidelity ETFs may be listed on the NEO Exchange, there can be no assurance that an active public market for the Units will develop or be sustained.

Trading Price of Units Risk

Units may trade in the market at a premium or a discount to the NAV per Unit. There can be no assurance that Units will trade at prices that reflect their NAV per Unit. The trading price of the Units will fluctuate in accordance with changes in a Fidelity ETF's NAV, as well as market supply and demand on the NEO Exchange or another exchange or marketplace, as applicable. However, as the Designated Broker and Dealers subscribe for and exchange Prescribed Number of Units of a Fidelity ETF at the NAV per Unit, large discounts or premiums to NAV should not be sustained.

Fluctuations in NAV Risk

The NAV per Unit of a Fidelity ETF will vary according to, among other things, the value of the securities held by the Fidelity ETF. The Manager and the Fidelity ETF have no control over the factors that affect the value of the securities held by the Fidelity ETF, including factors that affect securities markets generally, such as general economic and political conditions, fluctuations in interest rates and factors unique to each issuer of the securities held by the Fidelity ETF, such as changes in management, changes in strategic direction, achievement of strategic goals, mergers, acquisitions and divestitures, changes in distribution and dividend policies and other events. For example, the recent international spread of COVID-19 (coronavirus disease) has caused volatility and decline in global financial markets, as well as significant disruptions to global business activity, which have caused losses for investors. The impact of unanticipated market disruptions, including COVID-19, may cause exchanges to suspend trading and/or investment funds to suspend dealing (which could be for an extended period of time), may exacerbate pre-existing political, social or economic risk, and may disproportionately affect certain issuers, industries or types of securities. These impacts may have an effect on the performance of the Fidelity ETFs, the performance of the securities in which the Fidelity ETFs invest and may lead to an increase in the amount of redemptions experienced by the Fidelity ETFs (including redemptions by large investors. See "**Large Transaction Risk**"). Each of these effects may lead to illiquidity and losses on your investment. Such unanticipated market disruptions, including COVID-19, may be short-term or may last for an extended period of time, and could have effects that cannot necessarily be presently foreseen. Even if general economic conditions do not change or improve, the value of an investment in a Fidelity ETF could decline if the particular industries, sectors, companies or types of securities in which the Fidelity ETF invests do not perform well or are adversely affected by such unanticipated events.

Borrowing Risk

From time to time, a Fidelity ETF may borrow cash as a temporary measure to fund the portion of a distribution payable to its Unitholders that represents amounts that have not yet been received by the Fidelity ETF. Each Fidelity ETF is limited to borrowing up to the amount of the unpaid distribution and, in any event, not more than 5% of the net assets of that Fidelity ETF. There is a risk that a Fidelity ETF will not be able to repay the borrowed amount because it is unable to collect the distribution from the applicable issuer. Under these circumstances, the Fidelity ETF would repay the borrowed amount by disposing of portfolio assets.

Commodity Risk

A Fidelity ETF may invest in commodities or in companies engaged in commodity-focused industries and may obtain exposure to commodities using derivatives or by investing in exchange-traded funds, the underlying interests of which are commodities. Commodity prices can fluctuate significantly in short time periods, which will have a direct or indirect impact on the value of such a Fidelity ETF.

Legislation Risk

Securities, tax or other regulators make changes to legislation, rules and administrative practice. Those changes may have an adverse impact on the value of a Fidelity ETF. For instance, there can be no assurance that Canadian federal income tax laws and the administrative policies and assessing practices of the CRA respecting the treatment of mutual fund trusts, SIFT trusts or an investment in a non-resident trust will not be changed in a manner that adversely affects the Fidelity ETFs or the Unitholders. See also “**Taxation Risk**” for an additional discussion of the risks associated with changes in tax legislation, rules and administrative practice.

Securities Lending Risk

The Fidelity ETFs are eligible to enter into securities lending transactions. In a securities lending transaction, a Fidelity ETF lends its securities through the Securities Lending Agent to another party (often called a “**counterparty**”) in exchange for a fee and a form of acceptable collateral. Some of the general risks associated with securities lending transactions include: (i) when entering into securities lending transactions, a Fidelity ETF is subject to the credit risk that the counterparty may go bankrupt or may default under the agreement and the Fidelity ETF would be forced to make a claim in order to recover its investment; and (ii) when recovering its investment on a default, a Fidelity ETF could incur a loss if the value of the securities loaned has increased in value relative to the value of the collateral held by the Fidelity ETF.

The Fidelity ETFs reduce these risks by requiring the other party to put up collateral. The value of the collateral must be at least 102% of the market value of the security loaned. The value of the collateral is checked and reset daily. The Fidelity ETFs only deal with parties who appear to have the resources and the financial strength to live up to the terms of the agreements. Securities lending transactions are limited to 50% of a Fidelity ETF’s assets. Collateral held by a Fidelity ETF for loaned securities is not included in a Fidelity ETF’s assets when making this calculation.

Derivatives Risk

The Fidelity ETFs may use derivatives to pursue their investment objectives. Derivatives usually take the form of a contract with another party whose value is determined with reference to the market price of an asset, such as a currency, commodity or stock, or the value of an index or an economic indicator, such as a stock market index or a specified interest rate (the “**underlying interest**”). The Fidelity ETFs that invest in derivatives are in a position to make or lose money based on changes in the underlying interest, such as interest rates, securities prices or currency exchange rates. The following are some examples of derivatives.

Options. Options give the holder the right to buy an asset from, or sell an asset to, another party for a set price, during a set period of time. Fluctuations in the value of the asset during the life of the option impact the value of the option. The holder has the option of exercising the right to buy or sell the asset, and the other party is obliged to satisfy this right. The other party generally receives a cash payment (a premium) for agreeing to provide the option.

Forward contracts. In a forward contract, an investor agrees to buy or sell an asset, such as a security or currency, at an agreed price on a specific date in the future.

Futures contracts. Futures contracts generally function in a similar manner as forward contracts, but are traded on an exchange.

Swaps. With a swap agreement, two parties agree to exchange, or swap, payments. The payments the two parties make are based on an agreed underlying amount, like a bond. Each party’s payments are calculated differently. For

example, one party's payments may be based on a floating interest rate, while the other party's payments may be based on a fixed interest rate.

Debt-like securities. With a debt-like security, the amount of principal and/or interest an investor receives goes up or down depending on whether there is an increase or decrease in the value of an agreed underlying security, like a share.

The use of derivatives by a Fidelity ETF carries several risks, including: (i) there is no guarantee that the Fidelity ETF is able to buy or sell a derivative at the right time to make a profit or limit a loss; (ii) it is possible that the other party to the derivative contract ("**counterparty**") will fail to perform its obligations under the contract, resulting in a loss to the Fidelity ETF; (iii) if the value of a derivative is tied to the value of an underlying interest, there is no guarantee that the value of the derivative at all times accurately reflects the value of the underlying interest; (iv) if the counterparty goes bankrupt, the Fidelity ETF could lose any deposit that was made as part of the contract; (v) if the derivatives are traded on foreign markets, it may be more difficult and take longer to complete the transaction. Foreign derivatives can also be riskier than derivatives traded on North American markets; (vi) securities exchanges could set daily trading limits on options and futures contracts. This could prevent the Fidelity ETF from completing an options or futures transaction, making it very difficult to hedge properly, to make a profit, or to limit a loss; and (vii) if the Fidelity ETF is required to give a security interest in order to enter into a derivative, there is a risk that the other party may try to enforce the security interest against the Fidelity ETF's assets.

The Fidelity ETFs can use derivatives to help offset losses that other investments might suffer because of changes in stock prices, commodity prices, interest rates or currency exchange rates. This is called hedging. While using derivatives for hedging has its benefits, it is not without its own risks, including: (i) there is no guarantee that a hedging strategy is always successful; (ii) a derivative does not always offset a drop in the value of a security, even if it has historically done so; (iii) hedging does not prevent changes in the prices of the securities in a Fidelity ETF's portfolio, or prevent losses if the prices of the securities go down; (iv) hedging can also prevent a Fidelity ETF from making a gain if the value of the currency, stock or bond goes up; (v) currency hedging does not result in the impact of currency fluctuations being eliminated altogether; (vi) a Fidelity ETF might not be able to find a suitable counterparty to enable the Fidelity ETF to hedge against an expected change in a market if most other people are expecting the same change; and (vii) hedging may be costly.

Taxation Risk

The Fidelity ETFs will be subject to certain tax risks generally applicable to Canadian investment funds, including the following.

Each Fidelity ETF is expected to qualify or be deemed to qualify as a mutual fund trust under the Tax Act effective from the date of its creation and at all material times thereafter. If a Fidelity ETF does not qualify or ceases to qualify as a mutual fund trust under the Tax Act, the income tax considerations described under the heading "**Income Tax Considerations**" could be materially and adversely different in some respects. For example, if a Fidelity ETF does not qualify as a mutual fund trust within the meaning of the Tax Act throughout a taxation year, the Fidelity ETF may be liable to pay alternative minimum tax and/or tax under Part XII.2 of the Tax Act, and would not be entitled to the Capital Gains Refund (as defined herein). In addition, if a Fidelity ETF does not qualify as a mutual fund trust, it may be subject to the "mark-to-market" rules under the Tax Act if more than 50% of the fair market value of the Units are held by "financial institutions" within the meaning of the Tax Act for purposes of the "mark-to-market" rules.

There can be no assurance that the CRA will agree with the tax treatment adopted by a Fidelity ETF in filing its tax returns. The CRA could reassess a Fidelity ETF on a basis that results in tax being payable by the Fidelity ETF or in an increase in the taxable component of distributions considered to have been paid to Unitholders. A reassessment by the CRA may result in a Fidelity ETF being liable for unremitted withholding tax on prior distributions to non-resident Unitholders. Such liability may reduce the NAV of, or trading prices of, Units of the Fidelity ETF.

If a Fidelity ETF experiences a "loss restriction event" for the purposes of the Tax Act, the taxation year of the Fidelity ETF will be deemed to end and the Fidelity ETF will be deemed to realize its unrealized capital losses. The Fidelity ETF may elect to realize capital gains in order to offset its capital losses and non-capital losses, including undeducted losses from prior years. Any undeducted capital losses will expire and may not be deducted from the Fidelity ETF in future years and any undeducted non-capital losses in future years will be restricted, with the result that income and

capital gains distributions in the future may be larger. The Declaration of Trust provides for the automatic distribution to Unitholders of a sufficient amount of income and capital gains of the Fidelity ETF for each taxation year (including a taxation year that is deemed to end by virtue of a loss restriction event) so that the Fidelity ETF will not be liable for ordinary income tax. The Declaration of Trust provides that any such distribution is automatically reinvested in Units of the Fidelity ETF and the Units of the Fidelity ETF are immediately consolidated to the pre-distribution NAV per Unit. It may not be possible for a Fidelity ETF to determine if or when a loss restriction event has occurred because of the nature of its investments and the way Units are bought and sold. There can be no assurances that a Fidelity ETF will not experience a loss restriction event and there can be no assurances regarding when or to whom the distributions resulting from a loss restriction event will be made, or that a Fidelity ETF will not be required to pay tax notwithstanding such distributions.

A Fidelity ETF will be a SIFT trust if it holds a “non-portfolio property” (as defined in the Tax Act). A Fidelity ETF that is a SIFT trust will generally be subject to tax at rates applicable to a Canadian corporation on income from a non-portfolio property and net taxable capital gains realized on the disposition of a non-portfolio property. Unitholders who receive distributions from a Fidelity ETF of this type of income and capital gains are deemed to receive an eligible dividend from a Canadian corporation for tax purposes. The total of the tax payable by a Fidelity ETF on its non-portfolio earnings and the tax payable by a Unitholder on the distribution of those earnings will generally be more than the tax that would have been payable in the absence of the tax rules that apply to a SIFT trust. The Declaration of Trust requires that each Fidelity ETF restrict its investments and activities so its non-portfolio earnings and thus SIFT tax liability is immaterial for each taxation year; however, no assurance can be given in this regard.

Draft legislation released by the Minister of Finance (Canada) on July 30, 2019 introduced amendments to the Tax Act that would (a) effective for taxation years of a Fidelity ETF beginning on or after March 19, 2019, deny the Fidelity ETF a deduction for any income of the Fidelity ETF designated to a Unitholder on a redemption of Units, where the Unitholder’s proceeds of disposition are reduced by the designation, and (b) effective for taxation years of a Fidelity ETF beginning on or after March 20, 2020, deny the Fidelity ETF a deduction for the portion of a capital gain of the Fidelity ETF designated to a Unitholder on a redemption of Units that is greater than the Unitholder’s accrued gain on those Units, where, the Unitholder’s proceeds of disposition are reduced by the designation. Given the creation date of the Fidelity ETFs, the Fidelity ETFs will not be eligible for the 2020 taxation year deferral on capital gains designations. If such introduced amendments to the Tax Act are enacted in their current form, any income or taxable capital gains that would otherwise have been designated to redeeming Unitholders may be made payable to the remaining non-redeeming Unitholders to ensure the Fidelity ETF will not be liable for non-refundable income tax thereon. Accordingly, the amounts of taxable distributions made to Unitholders of a Fidelity ETF may be greater than they would have been in the absence of such amendments.

Cease Trading of Securities Risk

If securities held by a Fidelity ETF are cease traded at any time by a securities regulatory authority or other relevant regulator or stock exchange, the Manager may suspend the exchange or redemption of Units of the Fidelity ETF until such time as the transfer of the securities is permitted. As a result, each Fidelity ETF that holds securities traded on an exchange or other organized market bears the risk of cease trading orders against any security held by the Fidelity ETF.

Halted Trading of Units Risk

Trading of Units on the NEO Exchange may be halted by the activation of individual or market-wide “circuit breakers” (which halt trading for a specific period of time when the price of a particular security or overall market prices decline or increase by a specified percentage). Trading of Units may also be halted if (i) the Units are delisted from the NEO Exchange without first being listed on another exchange; or (ii) NEO Exchange officials determine that such action is appropriate in the interest of a fair and orderly market or to protect Unitholders.

Cyber Security Risk

Cyber security risk is the risk of harm, loss and liability resulting from a failure or breach of an organization’s information technology systems.

In general, cyber security risk can result from deliberate attacks or unintentional events, and may arise from external or internal sources. Cyber attacks include gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, equipment or systems or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users).

Cyber security risk has the ability to negatively impact the Fidelity ETFs and the Unitholders by, among other things, disrupting and impacting business operations, interfering with a Fidelity ETF’s ability to calculate its NAV, impeding trading by or in the Fidelity ETFs or causing violations of applicable privacy and other laws.

While the Manager has established business continuity plans and risk management systems to address cyber security risk, there are inherent limitations in such plans and systems, including the possibility that certain risks have not been identified. Furthermore, although the Manager has vendor oversight policies and procedures, a Fidelity ETF cannot control the cyber security plans and systems put in place by its service providers or any other third party whose operations may affect the Fidelity ETF or its Unitholders. The Fidelity ETF and its Unitholders could be negatively impacted as a result.

Series Risk

Each Fidelity ETF may, without notice to Unitholders and without Unitholder approval, offer more than one series of units. If a Fidelity ETF is unable to pay the expenses of one series using that series’ proportionate share of the Fidelity ETF’s assets, the Fidelity ETF is required to pay those expenses out of the other series’ proportionate share of the Fidelity ETF’s assets. This could lower the investment returns of the other series.

Additional Risks Relating to an Investment in one or more Fidelity ETFs

In addition to the general risk factors, the following additional risk factors are inherent in an investment in one or more of the Fidelity ETFs as indicated in the table below. A description of each of these risks, listed in alphabetical order, follows the table.

Fidelity ETF	Additional Risks
Fidelity All-in-One Balanced ETF	asset-backed securities and mortgage-backed securities risk; credit risk; currency risk; equity risk; exchange-traded fund risk; foreign investment risk; interest rate risk; portfolio management risk
Fidelity All-in-One Growth ETF	asset-backed securities and mortgage-backed securities risk; credit risk; currency risk; equity risk; exchange-traded fund risk; foreign investment risk; interest rate risk; portfolio management risk

Asset-backed Securities and Mortgage-backed Securities Risk

Certain Fidelity ETFs may invest indirectly through Underlying Fidelity ETFs in debt obligations that are backed by pools of consumer or business loans, known as asset-backed securities, or debt obligations backed by pools of mortgages on commercial or residential real estate, known as mortgage-backed securities. The value of those securities may be affected if there are changes in the market’s perception of the issuers of these types of securities, in the creditworthiness of the underlying borrowers, or in the assets backing the pools. Holders of asset-backed securities and mortgage-backed securities may not receive full repayment if the underlying loans are not ultimately repaid in full. Additionally, if these securities are prepaid before maturity and the prepayment is unexpected, or if it occurs faster than predicted, the asset-backed securities or mortgage-backed securities may pay less income, and their value

might decrease. Since issuers generally choose to prepay when interest rates fall, the Underlying Fidelity ETF may have to reinvest this money in securities that have lower rates.

Calculation and Termination of the Indices Risk

The Indices used by the Fidelity Index ETFs are calculated and maintained by or on behalf of the Index Provider. The Index Provider has the right to make adjustments to the Indices without regard to the particular interests of the Manager, the Fidelity Index ETFs or the Unitholders. The Index Provider may also cease to calculate the Indices in certain circumstances.

In addition, errors in respect of an Index may occur, including errors in respect of the quality, accuracy and completeness of the data, and these errors will affect the applicable Fidelity Index ETF and its Unitholders.

If the electronic or other facilities of the Index Provider or the applicable stock exchange malfunction for any reason, calculation of value of one or more Indices and the determination by the Manager of the Prescribed Number of Units and Baskets of Securities for the applicable Fidelity ETF may be delayed, and trading in Units may be suspended, for a period of time.

The Manager is not responsible for the Indices and does not provide any warranty or guarantee in respect of the Indices or the activities of the Index Provider.

With respect to a Fidelity Index ETF, if the Index Provider ceases to calculate the applicable Index or the Index License Agreement in respect of the applicable Index is terminated, the Manager may: (i) terminate the applicable Fidelity Index ETF on not less than 60 days' notice to Unitholders; (ii) change the investment objective of the applicable Fidelity Index ETF or seek to replicate generally an alternative index (subject to any Unitholder approval in accordance with Canadian securities legislation); or (iii) make such other arrangement as the Manager considers appropriate and in the best interests of Unitholders of the applicable Fidelity Index ETF in the circumstances.

Cease Trading of Constituent Securities Risk

If Constituent Securities of an Index are cease traded at any time by a securities regulatory authority or other relevant regulator or stock exchange, the Manager may suspend the exchange or redemption of Units of the applicable Fidelity Index ETF until such time as the transfer of the securities is permitted. As a result, each Fidelity Index ETF that holds securities traded on an exchange or other organized market bears the risk of cease trading orders against any security held by the Fidelity Index ETF.

Credit Risk

The Fidelity ETF may be subject to credit risk indirectly through Underlying Fidelity ETFs. Credit risk is the risk that an issuer of a fixed-income security cannot pay interest or repay principal when it is due. Many fixed-income securities of companies and governments are assigned credit ratings by specialized rating agencies, such as Standard & Poor's, which help measure the creditworthiness of the issuer. However, these credit ratings may not accurately reflect the true risk of the issuer.

The market value of fixed-income securities can be affected by adverse news, or a downgrade in the security's rating. Other factors can also affect the market value of the security, such as a change in the creditworthiness, or perceived creditworthiness, of the security's issuer.

Fixed-income securities that have a low credit rating, or which are unrated, are known as high yield securities. High yield securities typically: (i) offer a higher yield than securities with a high credit rating; (ii) have a higher potential for loss than fixed-income securities issued by financially stable and solvent issuers; (iii) are more likely to go into default on interest and principal payments than securities with a higher credit rating; and (iv) are less liquid in times of market declines.

Certain types of fixed-income securities, such as floating rate debt instruments, may be backed by specific assets that are pledged by the issuer in the event of a default, including non-payment. However, there is a risk that: (i) the value of the pledged collateral declines or is insufficient to meet the obligations of the borrower to all investors or lenders; and (ii) investors or lenders may incur legal costs, be subject to lengthy delays or be unable to fully recoup the principal amount and/or lost interest in the event of the issuer's default.

These and other factors may result in a loss to an Underlying Fidelity ETF if it holds these types of securities.

Currency Risk

Currency risk, sometimes referred to as exchange rate risk, is the risk that the value of an investment held by a Fidelity ETF is affected by changes in the value of the currency in which the investment is denominated. Movements in exchange rates can affect the day-to-day value of a Fidelity ETF or an Underlying Fidelity ETF, especially if the Fidelity ETF or Underlying Fidelity ETF invests a large percentage of its assets in foreign securities.

A Fidelity ETF or Underlying Fidelity ETF that buys and sells securities in currencies other than the Canadian dollar can make money when the value of the Canadian dollar decreases relative to the foreign currency, and can lose money when the value of the Canadian dollar rises compared with the foreign currency. These gains and losses occur when the Fidelity ETF or Underlying Fidelity ETF converts its Canadian dollars to the foreign currency in order to buy a security, and when it converts the foreign currency back into Canadian dollars when it sells the security. If, for example, the value of the Canadian dollar has risen, but the market value of the investment has stayed the same, the investment is worth less in Canadian dollars when it is sold.

Some of the Fidelity ETFs or Underlying Fidelity ETFs may use derivatives, such as options, futures contracts, forward contracts, swaps and customized types of derivatives, to reduce the effect of changes in exchange rates.

Dividend-Paying Securities Risk

Securities that pay dividends, as a group, may be out of favour with the market and underperform the overall equity market or stocks of companies that do not pay dividends. In addition, changes in the dividend policies of the companies held by an Underlying Fidelity ETF or the capital resources available for such company's dividend payments may adversely affect a Fidelity ETF.

Equity Risk

Companies issue common shares and other kinds of equity securities to help pay for their operations and finance future growth. Equity securities can drop in price for many reasons. For example, they are affected by general economic and market conditions, interest rates, political developments and changes in the companies that issue them. If investors have confidence in a company and believe it will grow, the price of its equity securities is likely to rise. If investor confidence falls, equity prices are also likely to fall. While these factors impact all securities issued by a company, the values of equity securities generally tend to change more frequently and vary more widely than fixed-income securities. As a Fidelity ETF's NAV is based on the value of the Underlying Fidelity ETFs, which in turn is based on the value of their portfolio securities, an overall decline in the value of the portfolio securities that it holds will reduce the value of the Underlying Fidelity ETF and, therefore, the value of the Fidelity ETF and the value of the Units.

Exchange-traded Fund Risk

The Fidelity ETFs invest in Underlying Fidelity ETFs that hold different types of investments, including stocks, bonds, commodities and other financial instruments. Certain underlying exchange-traded funds may attempt to replicate the performance of a widely quoted market index. Investments in exchange-traded funds may carry risks, including that the performance of an exchange-traded fund may be different from the performance of any index, commodity, or financial measure that the exchange-traded fund may seek to track, the Fidelity ETF may not be able to realize the full value of its investment in an underlying exchange-traded fund if it is unable to sell it on a securities market, there is no guarantee that any particular exchange-traded fund is available at any time or that an active trading market will develop or be maintained, and commissions may apply to the purchase or sale of third party exchange-traded funds.

Foreign Investment Risk

There are some significant reasons to consider investing abroad. The economies of foreign countries may grow faster than Canada's economy. This can mean that investments in those countries may also grow more quickly. Foreign investments can offer diversification, since all of an investor's money is not invested in Canada.

In addition to currency risk discussed herein, foreign investments have other risks, including: (i) not all countries are as well-regulated as Canada, or have the same consistent and reliable accounting, auditing, and financial reporting standards. Some countries may have lower standards of business practices and less stringent regulation and may be more vulnerable to corruption. Even in some relatively well-regulated countries, it can be difficult to get the information investors need about business operations. Foreign investments could suffer as a result; (ii) a small number of companies could make up a large part of the foreign market. If one of these companies does poorly, the whole market could decline; (iii) sometimes foreign governments impose taxes, take over private businesses or change the rights of foreign investors. They might impose currency controls that greatly restrict the ability to get money out of the country, or they may devalue their currency; (iv) riots, civil unrest or wars, or unstable governments in some countries could hurt investments; and (v) foreign countries may experience relatively high inflation and high interest rates.

It is sometimes difficult to enforce a Fidelity ETF's or an Underlying Fidelity ETF's legal rights in another country.

Of course, the amount of risk varies from country to country. Securities in developed markets generally have lower foreign investment risk because they are usually well regulated and are relatively stable. However, securities of governments and companies in the emerging or developing markets, such as South or Southeast Asia and Latin America, can have significant foreign investment risk.

In addition, investment income received, and capital gains realized, by a Fidelity ETF or Underlying Fidelity ETF from sources within foreign countries may be subject to foreign taxes withheld at the source. Any foreign withholding taxes could reduce the Underlying Fidelity ETF's, and, hence, the Fidelity ETF's distributions paid to you. Canada has entered into tax treaties with certain foreign countries which may entitle mutual funds to a reduced rate of tax on such foreign income. Some countries require the filing of a tax reclaim or other forms to receive the benefit of the reduced tax rate. Whether or when a Fidelity ETF or Underlying Fidelity ETF will receive the tax reclaim is within the control of the particular foreign country. Information required on these forms may not be available (such as unitholder information); therefore, the Fidelity ETF or Underlying Fidelity ETF may not receive the reduced treaty rates or potential reclaims. Certain countries have conflicting and changing instructions and restrictive timing requirements which may cause a Fidelity ETF or Underlying Fidelity ETF not to receive the reduced treaty rates or potential reclaims.

Index Investment Strategy Risk

The value of the applicable Index of a Fidelity Index ETF may fluctuate in accordance with the financial condition of the Constituent Issuers that are represented in such Index (particularly those that are more heavily weighted), the value of the securities generally and other factors.

Because the investment objective of each Fidelity Index ETF is to replicate the performance of the applicable Index, the Fidelity Index ETFs are not actively managed by traditional methods and the relevant Sub-advisor will not attempt to take defensive positions in declining markets. Therefore, a Constituent Issuer with an adverse financial condition may not be removed from the portfolio of a Fidelity Index ETF until that Constituent Issuer is removed from the applicable Index.

Interest Rate Risk

Interest rates impact the cost of borrowing for governments, companies, and individuals, which, in turn, impacts overall economic activity and a wide range of investments. Lower interest rates tend to stimulate economic growth, whereas high interest rates tend to do the opposite. Interest rates may rise during the term of a fixed-income investment. When interest rates rise, fixed-income securities, like treasury bills and bonds, tend to fall in price. On the other hand,

these securities tend to rise in price when interest rates fall. Various regulators and industry bodies are working globally on transitioning from interbank offered rates (IBORs), including the London Interbank Offered Rate (LIBOR), to alternative rates. The effect of such a transition on a Fidelity ETF and the Underlying Fidelity ETFs in which it invests cannot yet be determined, and may result in a reduction in the value of IBOR-based instruments held by an Underlying Fidelity ETF, a reduction in the effectiveness of certain hedging transactions and increased illiquidity and volatility in markets that currently rely on an IBOR to determine interest rates, any of which could adversely impact a Fidelity ETF's performance.

Portfolio Management Risk

Each Fidelity ETF is dependent on its Sub-advisor to select its investments and is subject to the risk that poor security selection will cause it to underperform relative to other investment funds with similar investment objectives.

Rebalancing and Subscription Risk

Adjustments to Baskets of Securities held by a Fidelity Index ETF to reflect rebalancing events, including adjustments to the applicable Index or as otherwise determined by the relevant Sub-advisor, will depend on the ability of the Manager and the Designated Broker to perform their respective obligations under the designated broker agreement. If a Designated Broker fails to perform, the Fidelity Index ETF may be required to sell or purchase, as the case may be, Constituent Securities of the applicable Index in the market. If this happens, the Fidelity Index ETF would incur additional transaction costs, which would cause the performance of the Fidelity Index ETF to deviate more significantly from the performance of the applicable Index than would otherwise be expected.

Adjustments to the Basket of Securities necessitated by a rebalancing event could affect the underlying market for the Constituent Securities of the applicable Index, which in turn would affect the value of that Index. Similarly, subscriptions for Units by the Designated Broker and Dealers may impact the market for the Constituent Securities of the Index, as the Designated Broker or the Dealer seeks to buy or to borrow the Constituent Securities to constitute the Baskets of Securities to be delivered to the Fidelity Index ETF as payment for the Units to be issued.

Sampling Methodology Risk

The Fidelity Index ETFs may employ a sampling methodology. A sampling methodology involves seeking to replicate the performance of the applicable Index by holding a subset of the Constituent Securities or a portfolio of some or all of the Constituent Securities and other securities selected by the relevant Sub-advisor such that the aggregate investment characteristics of the portfolio are reflective of the aggregate investment characteristics of, or a representative sample of, the applicable Index. In certain circumstances, exposure to one or more securities may be obtained through the use of derivatives. It is possible that the use of a sampling methodology may result in a greater deviation in performance relative to the applicable Index than a replication strategy in which only the Constituent Securities are held in the portfolio in approximately the same proportions as they are represented in the applicable Index.

Tracking Error Risk

Each Fidelity Index ETF will not replicate exactly the performance of the applicable Index because the total return generated by the Units will be reduced by the management fee paid or payable by the Fidelity Index ETF, the brokerage and commission costs incurred in acquiring and rebalancing the portfolio of securities held by the Fidelity Index ETF, taxes (including withholding taxes) and the other expenses paid or payable by the Fidelity Index ETF. These fees and expenses are not included in the calculation of the performance of the applicable Index.

Deviations in the tracking of the applicable Index by a Fidelity Index ETF could occur for a variety of other reasons. For example, where a Fidelity Index ETF tenders securities under a successful takeover bid for less than all securities of a Constituent Issuer and the Constituent Issuer is not removed from the applicable Index, the Fidelity Index ETF may be required to buy replacement securities at a purchase price that may be more than the takeover bid price due to timing variances. Other reasons for tracking error include the temporary unavailability of certain Constituent

Securities in the secondary market and the investment strategies and investment restrictions applicable to the Fidelity Index ETF, including the use of a sampling methodology.

Risk Classification Methodology

The investment risk level of each Fidelity ETF is required to be determined in accordance with a standardized risk classification methodology that is based on the historical volatility of the Fidelity ETF, as measured by the 10-year standard deviation of the returns of the Fidelity ETF. As each of the Fidelity ETFs has less than 10 years of performance history, the Manager calculates the investment risk level of each Fidelity ETF using a reference index that is expected to reasonably approximate the standard deviation of the Fidelity ETF. Once a Fidelity ETF has 10 years of performance history, the methodology will calculate the standard deviation of the Fidelity ETF using the return history of the Fidelity ETF rather than that of the reference index. In each case, the Fidelity ETFs are assigned an investment risk rating in one of the following categories: low, low to medium, medium, medium to high or high risk.

The following chart sets out the risk rating of each Fidelity ETF, as well as the reference index used for the Fidelity ETFs:

Fidelity ETF	Risk Rating	Reference Index
Fidelity All-in-One Balanced ETF	Low to Medium	15% S&P/TSX Composite Index 30% Russell 1000 Index 15% MSCI EAFE Index 30% FTSE Canada Universe Bond Index 10% Bloomberg Barclays Global Aggregate Bond Index – Hedged CAD
Fidelity All-in-One Growth ETF	Low to Medium	21.25% S&P/TSX Composite Index 42.50% Russell 1000 Index 21.25% MSCI EAFE Index 11.25% FTSE Canada Universe Bond Index 3.75% Bloomberg Barclays Global Aggregate Bond Index – Hedged CAD

The following chart sets out a description of the reference indices used for the Fidelity ETFs:

Reference Index	Description of Reference Index
Bloomberg Barclays Global Aggregate Bond Index - Hedged CAD	The Bloomberg Barclays Global Aggregate Bond Index – Hedged CAD covers the most liquid portion of the global investment grade fixed-rate bond market, including government, credit and collateralized securities, hedged to the Canadian dollar.
FTSE Canada Universe Bond Index	The FTSE Canada Universe Bond Index is a capitalization-weighted index with more than 950 Canadian bonds, and includes the highest quality bonds with term-to-maturity of one to thirty years, designed to reflect the Canadian bond market.
MSCI EAFE Index	The MSCI EAFE Index is an equity index that captures large and mid-capitalization securities exhibiting across 21 developed market countries* around the world, excluding the U.S. and Canada.
Russell 1000 Index	The Russell 1000 Index is an index of approximately 1,000 of the largest companies by market capitalization in the U.S. equity market.
S&P/TSX Composite Index	The S&P/TSX Composite Index aims to reflect the performance of the Canadian equity market.

*Developed markets countries include: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland and the United Kingdom.

Unitholders should know that other types of risks, both measurable and non-measurable, exist. Also, just as historical performance may not be indicative of future returns, historical volatility may not be indicative of future volatility. The risk rating of each Fidelity ETF set out above is reviewed annually and any time that it is no longer reasonable in the circumstances. A more detailed explanation of the risk classification methodology used to identify the risk ratings of the Fidelity ETFs is available on request, at no cost, by calling toll free at 1-800-263-4077 or by writing to Fidelity Investments Canada ULC, 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7.

DISTRIBUTION POLICY

Distributions

Cash distributions on Units of the Fidelity ETFs will be paid annually.

Where a Fidelity ETF offers more than one series of Units, separate cash distributions are declared for each series, and the ratio of the distribution amount for each series to the NAV per Unit of that series at the time of distribution will be approximately equal. The Manager may, in its discretion, change the frequency of cash distributions, and will issue a press release if such a change is made, or the Manager may make additional distributions if determined to be appropriate. Cash distributions are expected to consist primarily of income, but may, at the Manager's discretion, include capital gains and/or returns of capital. Distributions are not fixed or guaranteed.

Each Fidelity ETF distributes a sufficient amount of its net income and net realized capital gains to Unitholders for each taxation year so that the Fidelity ETF will not be liable for ordinary income tax. To the extent that a Fidelity ETF has not otherwise distributed a sufficient amount of its net income or net realized capital gains, it will pay a distribution to Unitholders at the end of the year and that distribution will be automatically reinvested in additional Units. Immediately following such reinvestment, the number of Units outstanding will be consolidated so that the NAV per Unit following the distribution and reinvestment is the same as it would have been if the distribution had not been paid. In the case of a non-resident Unitholder, if tax has to be withheld in respect of the distribution, the Unitholder's Canadian market intermediaries may debit his, her or its account for any such required withholding tax.

Units of each Fidelity ETF trade on an ex-dividend basis at the opening of trading on the date that is one Trading Day prior to the record date for the applicable distribution. A Unitholder that subscribes for Units during the period commencing on and including the date that is one Trading Day before a distribution record date until that distribution record date will not be entitled to receive the applicable distribution in respect of those Units. Income and/or capital gains of a Fidelity ETF may be distributed to a Unitholder as part of the price paid to the Unitholder on the exchange or redemption of Units.

Management Fee Distributions, if any, will be paid first out of the net income and net realized capital gains of a Fidelity ETF and then out of capital.

The tax treatment to Unitholders of distributions is discussed under the heading "**Income Tax Considerations**".

Reinvestment Plan

The Manager has implemented a Reinvestment Plan for the Fidelity ETFs under which cash distributions are used to purchase Plan Units in the market, which are then credited to the Plan Participant through CDS. A Unitholder who wishes to enrol in the Reinvestment Plan as of a particular distribution record date should notify his, her or its CDS Participant sufficiently in advance of that distribution record date to allow the CDS Participant to notify CDS no later than 3:00 p.m. (Toronto time) on that distribution record date.

Fractional Units

No fractional Plan Units are delivered under the Reinvestment Plan. Payment in cash for any remaining uninvested funds may be made in lieu of delivering fractional Plan Units by the Plan Agent to CDS or a CDS Participant, on a monthly basis. Where applicable, CDS will, in turn, credit the Plan Participant, via the applicable CDS Participant.

Amendments, Suspension or Termination of the Reinvestment Plan

Plan Participants are able to terminate their participation in the Reinvestment Plan as of a particular distribution record date by notifying their CDS Participant no later than 4:00 p.m. (Toronto time) at least two business days prior to the applicable distribution record date. Beginning on the first distribution payment date after such notice is delivered, distributions to such Unitholders will be in cash. The form of termination notice is available from CDS Participants and any expenses associated with the preparation and delivery of such termination notice is for the account of the Plan Participant exercising his, her or its right to terminate participation in the Reinvestment Plan.

The Manager is permitted to terminate the Reinvestment Plan, in its sole discretion, upon not less than 30 days' notice to the Plan Participants and the Plan Agent, subject to any required regulatory approval. The Manager is also permitted to amend, modify or suspend the Reinvestment Plan at any time, in its sole discretion, provided that it complies with certain requirements, and gives notice of such amendment, modification or suspension to the Plan Participants and the Plan Agent, subject to any required regulatory approval, which notice may be given by issuing a press release containing a summary description of the amendment or in any other manner that the Manager determines to be appropriate.

The Manager may from time to time adopt rules and regulations to facilitate the administration of the Reinvestment Plan. The Manager reserves the right to regulate and interpret the Reinvestment Plan as it deems necessary or desirable to ensure the efficient and equitable operation of the Reinvestment Plan.

Other Provisions

Participation in the Reinvestment Plan is restricted to Unitholders who are residents of Canada for the purposes of the Tax Act or "Canadian partnerships" as defined in the Tax Act. Immediately upon becoming a non-resident of Canada or ceasing to be a Canadian partnership, a Plan Participant is required to notify his, her or its CDS Participant and terminate participation in the Reinvestment Plan.

The automatic reinvestment of distributions under the Reinvestment Plan does not relieve Plan Participants of any income tax applicable to the distributions. See "**Income Tax Considerations**".

PURCHASES OF UNITS

Continuous Distribution

Units of the Fidelity ETFs are being offered on a continuous basis and there is no maximum number of Units that may be issued.

Designated Broker

The Manager, on behalf of each Fidelity ETF, has entered into a designated broker agreement with a Designated Broker pursuant to which the Designated Broker has agreed to perform certain duties relating to one or more of the Fidelity ETFs including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the original listing requirements of the NEO Exchange; (ii) to subscribe for Units when cash redemptions of Units occur as described under "**Redemption of Units**"; and (iii) to post a liquid two-way market for the trading of Units on the NEO Exchange.

In accordance with the designated broker agreement, the Manager may from time to time require the Designated Broker to subscribe for Units of a Fidelity ETF for cash.

Issuance of Units

To Designated Brokers and Dealers

Generally, all orders to purchase Units directly from a Fidelity ETF must be placed by a Designated Broker or a Dealer. Each Fidelity ETF reserves the absolute right to reject any subscription order placed by a Designated Broker or a Dealer. No fees will be payable by a Fidelity ETF to a Designated Broker or a Dealer in connection with the issuance of Units. On the issuance of Units, an amount may be charged to a Designated Broker or a Dealer to offset the expenses incurred in issuing the Units.

After the initial issuance of Units of a Fidelity ETF to the Designated Broker to satisfy the NEO Exchange's original listing requirements, on any Trading Day, a Dealer (who may also be a Designated Broker) may place a subscription order for a Prescribed Number of Units (and any additional multiple thereof) of a Fidelity ETF. If a subscription order is received by the Fidelity ETF by the applicable Cut-Off Time on a Trading Day, the Fidelity ETF will issue to the Dealer a Prescribed Number of Units (and any additional multiple thereof) based on the NAV per Unit determined on the applicable Trading Day. If a subscription order is not received by the applicable Cut-Off Time on a Trading Day, subject to the discretion of the Manager, the subscription order will be deemed to be received only on the next business day. The Cut-Off Times for each Fidelity ETF are set out in the table below.

Fidelity ETF	Cut-Off Times for Subscriptions/ Exchanges, Paid in Cash Only	Cut-Off Times for all other Subscriptions/ Exchanges
Fidelity All-in-One Balanced ETF Fidelity All-in-One Growth ETF	4:00 p.m. (Toronto time) on a Trading Day	

For each Prescribed Number of Units issued, a Dealer must deliver payment consisting of, depending on the terms of the agreement with the Dealer or in the applicable Sub-advisor's discretion: (i) one Basket of Securities and cash in an amount sufficient so that the value of the securities and the cash received is equal to the aggregate NAV per Unit of the Prescribed Number of Units next determined following the receipt of the subscription order; (ii) cash in an amount equal to the aggregate NAV per Unit of the Prescribed Number of Units next determined following the receipt of the subscription order; or (iii) other securities and cash, as determined by the Manager, in an amount sufficient so that the value of the securities and cash received is equal to the aggregate NAV per Unit of the Prescribed Number of Units next determined following the receipt of the subscription order.

The Manager will make available to the applicable Designated Broker and Dealers information as to the Prescribed Number of Units and any Basket of Securities for each Fidelity ETF for each Trading Day. The Manager may, in its discretion, increase or decrease the Prescribed Number of Units from time to time.

To Designated Brokers in Special Circumstances

Units may also be issued by a Fidelity ETF to its Designated Broker in certain special circumstances, including when cash redemptions of Units occur as described under "**Redemption of Units – Redemption of Units in any Number for Cash**".

To Unitholders

Units may be issued by a Fidelity ETF to Unitholders on the automatic reinvestment of certain distributions as described under "**Distribution Policy – Distributions**", and "**Income Tax Considerations – Taxation of the Fidelity ETFs**".

Buying and Selling Units

The NEO Exchange has conditionally approved the listing of the Units of the Fidelity ETFs. Listing is subject to the Fidelity ETFs fulfilling all of the NEO Exchange's listing requirements, including the minimum distribution requirement.

A Unitholder may incur customary brokerage commissions in buying or selling Units. No fees are paid by a Unitholder to the Manager or the Fidelity ETFs in connection with the buying or selling of Units on the NEO Exchange or another exchange or marketplace. Unitholders may trade Units in the same way as other securities listed on the NEO Exchange including by using market orders and limit orders.

Special Considerations for Unitholders

The provisions of the so-called "early warning" reporting requirements in Canadian securities legislation do not apply if a person or company acquires 10% or more of the Units of a Fidelity ETF. The Fidelity ETFs have obtained exemptive relief to permit Unitholders to acquire more than 20% of the Units of any Fidelity ETF without regard to the takeover bid requirements of applicable Canadian securities legislation.

Non-Resident Unitholders

At no time may (i) non-residents of Canada, (ii) partnerships that are not Canadian partnerships, or (iii) a combination of non-residents of Canada and such partnerships (all as defined in the Tax Act) be the beneficial owners of a majority of the Units of a Fidelity ETF at any time during which more than 10% of the property of the Fidelity ETF consists of certain "taxable Canadian property" (as defined in the Tax Act). The Manager shall inform the Registrar and Transfer Agent of this restriction. The Manager may require declarations as to the jurisdictions in which a beneficial owner of Units is resident and, if a partnership, its status as a Canadian partnership. If the Manager becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% of the Units of a Fidelity ETF then outstanding are, or may be, non-residents and/or partnerships that are not Canadian partnerships, or that such a situation is imminent, the Manager may make a public announcement thereof. If the Manager determines that more than 40% of such Units are beneficially held by non-residents and/or partnerships that are not Canadian partnerships, the Manager may send a notice to such non-resident Unitholders and partnerships, chosen in inverse order to the order of acquisition or in such manner as the Manager may consider equitable and practicable, requiring them to sell their Units or a portion thereof within a specified period of not less than 30 days. If the Unitholders receiving such notice have not sold the specified number of Units or provided the Manager with satisfactory evidence that they are not non-residents or partnerships other than Canadian partnerships within such period, the Manager may, on behalf of such Unitholders, sell such Units and, in the interim, shall suspend the voting and distribution rights attached to such Units. Upon such sale, the affected holders shall cease to be beneficial holders of Units and their rights shall be limited to receiving the net proceeds of sale of such Units.

Notwithstanding the foregoing, the Manager may determine not to take any of the actions described above if the Manager reasonably determines that the failure to take any such action would not adversely impact the status of the Fidelity ETF as a mutual fund trust for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the Fidelity ETF as a mutual fund trust for purposes of the Tax Act. Such action may include, without limitation, causing the Fidelity ETF to redeem the Units of that Unitholder for a redemption price equal to their NAV per Unit on the redemption date.

Registration and Transfer through CDS

Registration of interests in, and transfers of, the Units will be made only through the book-entry only system of CDS. Units must be purchased, transferred, and surrendered for exchange or redemption only through a CDS Participant. All rights of an owner of Units must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Units. Upon purchase of any Units, the owner will receive only the customary confirmation. All distributions and redemption proceeds in respect of Units will be made or paid initially to CDS, which payments will be forwarded by CDS to the

CDS Participants and, thereafter, by such CDS Participants to the applicable Unitholders. References in this prospectus to a holder of Units means, unless the context otherwise requires, the owner of the beneficial interest in such Units.

Neither the Fidelity ETFs nor the Manager will have any liability for: (i) any aspect of the records maintained by CDS relating to the beneficial interests in the Units or the book-entry accounts maintained by CDS; (ii) maintaining, supervising or reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or given by CDS, whether contained in this prospectus or otherwise, or made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of the CDS Participants. The rules governing CDS provide that it acts as the agent and depository for the CDS Participants. As a result, CDS Participants must look solely to CDS and persons, other than CDS Participants, having an interest in the Units must look solely to CDS Participants for payment made by the Fidelity ETFs to CDS.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such owner's interest in such Units (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

The Fidelity ETFs have the option to terminate registration of the Units through the book-entry only system, in which case certificates for Units in fully registered form will be issued to beneficial owners of such Units or to their nominees.

REDEMPTION OF UNITS

Redemption of Units in any Number for Cash

On any Trading Day, Unitholders may redeem Units of any Fidelity ETF in any whole number for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the NEO Exchange on the effective day of the redemption, subject to a maximum redemption price of the NAV per Unit. Because Unitholders will generally be able to sell Units at the market price on the NEO Exchange or another exchange or marketplace through a registered broker or dealer subject only to customary brokerage commissions, Unitholders are advised to consult their brokers, dealers or investment advisers before redeeming their Units for cash.

For such a cash redemption to be effective on a Trading Day, a cash redemption request in the form prescribed by the Manager from time to time must be delivered through a CDS Participant by 9:00 a.m. (Toronto time) on that day to the applicable Fidelity ETF at its head office or as the Manager may otherwise direct. If a cash redemption request is received after 9:00 a.m. (Toronto time) on a Trading Day, the cash redemption request will be effective only on the next business day. Payment of the redemption price will be made by no later than the second business day after the effective day of the redemption. The cash redemption request forms may be obtained from the Manager.

Units of each Fidelity ETF trade on an ex-dividend basis at the opening of trading on the date that is one Trading Day prior to the record date for the applicable distribution. A Unitholder that exercises this cash redemption right in respect of Units during the period commencing on and including the date that is one Trading Day before a distribution record date until that distribution record date will not be entitled to receive the applicable distribution in respect of those Units. Income and/or capital gains of a Fidelity ETF may be distributed to a Unitholder as part of the price paid to the Unitholder on the exchange or redemption of Units.

In connection with the redemption of Units, a Fidelity ETF will generally dispose of securities or other assets in order to fund the required redemption proceeds. The redemption price paid to a Unitholder may include income and/or capital gains realized by the Fidelity ETF. The remaining portion of the exchange or redemption price will be proceeds of redemption.

The Manager reserves the right to cause a Fidelity ETF to redeem the Units held by a Unitholder at a price equal to the NAV per Unit on the effective date of such redemption if the Manager believes it is in the best interests of the Fidelity ETF to do so.

Exchange of Prescribed Number of Units

On any Trading Day, Unitholders may exchange a minimum of a Prescribed Number of Units (and any additional multiple thereof) for, in the discretion of the Manager, Baskets of Securities and cash, only cash or other securities and cash. To effect an exchange of Units, a Unitholder must submit an exchange request in the form prescribed by the Manager from time to time to the applicable Fidelity ETF at its head office or as the Manager may otherwise direct by the applicable Cut-Off Time on a Trading Day. The exchange price will be equal to the aggregate NAV per Unit of the Prescribed Number of Units on the effective day of the exchange request, payable by delivery of Baskets of Securities (constituted prior to the receipt of the exchange request) and cash, only cash or other securities and cash, depending on the terms of any agreement with the Unitholder or with the consent of the Manager. If the Unitholder receives only cash, the Manager may, in its discretion, require the Unitholder to pay or reimburse the applicable Fidelity ETF for the trading expenses incurred, or expected to be incurred, by the Fidelity ETF in connection with the sale by such Fidelity ETF of securities in order to obtain the necessary cash to fund the exchange price. On an exchange, the applicable Units will be redeemed.

If an exchange request is not received by the applicable Cut-Off Time on a Trading Day, subject to the discretion of the Manager, the exchange request will be deemed to be received only on the next business day. Settlement of exchanges for Baskets of Securities and cash, only cash or other securities and cash, as the case may be, will be made by no later than the second business day after the effective day of the exchange request.

The Manager will make available to the applicable Designated Broker and the Dealers information as to the Prescribed Number of Units and any Basket of Securities for each Fidelity ETF for each Trading Day. The Manager may, in its discretion, increase or decrease the Prescribed Number of Units from time to time.

Units of each Fidelity ETF trade on an ex-dividend basis at the opening of trading on the date that is one Trading Day prior to the record date for the applicable distribution. A Unitholder that exchanges or redeems Units during the period commencing on and including the date that is one Trading Day prior to the distribution record date until that distribution record date will be entitled to receive the applicable distribution in respect of those Units.

If securities held in the portfolio of a Fidelity ETF are cease traded at any time by order of a securities regulatory authority or other relevant regulator or stock exchange, the delivery of such securities to a Unitholder on an exchange may be postponed until such time as the transfer of the securities is permitted by law.

Characterization of Redemption or Exchange Amount

The exchange or redemption price paid to a Unitholder may include income and/or capital gains realized by the Fidelity ETF. The remaining portion of the exchange or redemption price will be proceeds of disposition.

Suspension of Exchanges and Redemptions

The Manager may suspend the exchange and/or redemption of Units or the payment of the exchange or redemption price of a Fidelity ETF: (i) during any period when normal trading is suspended on a stock exchange or other market on which securities owned by the Fidelity ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the Fidelity ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the Fidelity ETF; or (ii) with the prior permission of the securities regulatory authorities. The suspension shall apply to all requests for exchange or redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Unitholders making such requests shall be advised by the Manager of the suspension and that the exchange or redemption will be effected at a price determined on the first Valuation Date following the termination of the suspension. All such Unitholders shall have, and shall be advised that they have, the right to withdraw their requests for exchange or redemption. The Manager shall not accept a subscription order for Units during any period when exchanges or redemptions are suspended unless it has received permission from the Ontario Securities Commission to accept such orders. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with the official rules and regulations

promulgated by any government body having jurisdiction over the Fidelity ETFs, any declaration of suspension made by the Manager shall be conclusive.

Exchange and Redemption of Units through CDS Participants

The exchange and redemption rights described above must be exercised through the CDS Participant through which the owner holds Units. Beneficial owners of Units should ensure that they provide exchange and/or redemption instructions to the CDS Participants through which they hold Units sufficiently in advance of the cut-off times set by CDS Participants to allow such CDS Participants to notify the Manager or as the Manager may direct prior to the relevant cut-off time.

Short-Term Trading

The Manager does not believe that it is necessary to impose any short-term trading restrictions on the Fidelity ETFs at this time, as the Fidelity ETFs are exchange-traded funds that are primarily traded in the secondary market.

INCOME TAX CONSIDERATIONS

In the opinion of Borden Ladner Gervais LLP, the following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Tax Act for the Fidelity ETFs and for a prospective Unitholder in a Fidelity ETF who, for the purposes of the Tax Act, is an individual (other than a trust), is resident in Canada, holds Units of the Fidelity ETF either directly as capital property or in a Registered Plan, is not affiliated with the Fidelity ETF and deals at arm's length with the Fidelity ETF. This summary is based on the current provisions of the Tax Act, all specific proposals to amend the Tax Act that have been publicly announced by the Minister of Finance (Canada) (the "Minister") prior to the date of this prospectus and counsel's understanding of the current published administrative policies and assessing practices of the CRA. This summary does not take into account or anticipate any other changes in law whether by legislative, administrative or judicial action and it does not take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the considerations described below.

This summary is of a general nature only and is not exhaustive of all possible income tax considerations. Prospective investors should therefore consult their own tax advisers about their individual circumstances.

This summary is also based on the assumptions that each Fidelity ETF will: (i) qualify or be deemed to qualify as a mutual fund trust under the Tax Act at all material times; (ii) not be a SIFT trust at any time; (iii) not invest in any "offshore investment fund property" as defined in section 94.1 of the Tax Act; (iv) not invest 10% or more in any "exempt foreign trust" as described in section 94.2 of the Tax Act; (v) not invest in securities of an issuer that would be treated as a "foreign affiliate" or a "controlled foreign affiliate" of the Fidelity ETF; and (vi) not enter into any arrangement where the result would be a "dividend rental arrangement" under the Tax Act. The Manager has advised counsel that it expects this to be the case and that these assumptions are reasonable.

Status of the Fidelity ETFs

This summary is based on the assumption that each Fidelity ETF will qualify or be deemed to qualify as a mutual fund trust under the Tax Act effective from the date of its creation and at all material times thereafter. If a Fidelity ETF were not to so qualify as a mutual fund trust under the Tax Act throughout a taxation year, the Fidelity ETF, among other things: (i) may become liable for alternative minimum tax under the Tax Act in such year; (ii) would not be eligible for a Capital Gains Refund (defined below) for such year; (iii) may be subject to the "mark-to-market" rules described below; (iv) would be required to withhold on capital gains distributions made to Unitholders who are non-residents of Canada for purposes of the Tax Act; and (v) may be subject to a special tax under Part XII.2 of the Tax Act in such year.

If a Fidelity ETF does not qualify as a mutual fund trust and more than 50% (based on fair market value) of the Units of the Fidelity ETF are held by one or more Unitholders that are considered "financial institutions" for the purposes of certain mark-to-market rules in the Tax Act, then the Fidelity ETF itself will be treated as a financial institution

under those rules. As a result, the Fidelity ETF will be required to recognize income for each taxation year during which it is a deemed financial institution on the full amount of any gains and losses accruing on certain types of securities that it holds, and also will be subject to special rules with respect to income inclusion on these securities. Any income arising from such treatment will be included in amounts to be distributed to Unitholders. If more than 50% of the Units of the Fidelity ETF cease to be held by financial institutions, the tax year of the Fidelity ETF will be deemed to end immediately before that time and any gains or losses accrued before that time will be deemed realized by the Fidelity ETF and will be distributed to Unitholders. A new taxation year for the Fidelity ETF will then begin and for that and subsequent taxation years, for so long as not more than 50% of the Units of the Fidelity ETF are held by financial institutions or the Fidelity ETF qualifies as a mutual fund trust, the Fidelity ETF will not be subject to these mark-to-market rules. Initially, following the creation of a Fidelity ETF, financial institutions will hold all the outstanding Units of the Fidelity ETF.

Taxation of the Fidelity ETFs

Each Fidelity ETF will elect to have a taxation year that ends on December 15 of each calendar year.

Each Fidelity ETF is subject to tax under Part I of the Tax Act on its net income, including net taxable capital gains, as calculated under the Tax Act for a taxation year (after deducting available loss carryforwards) to the extent that it is not paid or payable to Unitholders. A Fidelity ETF that is a mutual fund trust throughout its taxation year is entitled to a refund (“**Capital Gains Refund**”) of its tax liability on its net realized capital gains equal to an amount determined by formula under the Tax Act based on the redemption of Units during the year and accrued gains on the Fidelity ETF’s assets. The Declaration of Trust requires each Fidelity ETF to distribute a sufficient amount of its net income and net realized capital gains, if any, for each taxation year to Unitholders so that the Fidelity ETF will not be liable in any taxation year for income tax under Part I of the Tax Act after taking into account any entitlement to a Capital Gains Refund.

Each Fidelity ETF is required to calculate its net income, including net taxable capital gains, in Canadian dollars for each taxation year according to the rules in the Tax Act. Net income, including net taxable capital gains, is affected by fluctuations in the value of the Canadian dollar relative to foreign currency where amounts of income, expense, cost or proceeds of disposition are denominated in foreign currency. A Fidelity ETF is generally required to include in the calculation of its income interest as it accrues, dividends when they are received and capital gains and losses when they are realized. Foreign source income received by a Fidelity ETF is generally received net of any taxes withheld in the foreign jurisdiction. The foreign taxes so withheld are included in the calculation of the Fidelity ETF’s income. Trust income that is paid or becomes payable to a Fidelity ETF in a calendar year is generally included in income for the taxation year of the Fidelity ETF that ends in the calendar year. Trust income paid or payable to a Fidelity ETF by a Canadian-resident trust may have the character of ordinary property income, foreign source income, dividends received from a taxable Canadian corporation or capital gains.

Gains or losses realized by a Fidelity ETF on the disposition of securities held as capital property constitute capital gains or capital losses. Securities will generally be considered to be held by a Fidelity ETF as capital property unless the Fidelity ETF is considered to be trading or dealing in securities, or otherwise carrying on a business of buying and selling securities, or has acquired the securities in a transaction or transactions considered to be an adventure in the nature of trade. The Manager has advised counsel that each Fidelity ETF purchases securities (other than derivative instruments) with the objective of earning income thereon and takes the position that gains and losses realized on the disposition of these securities are capital gains and capital losses. Generally, a gain or loss from a cash settled option, futures contract, forward contract, total return swap and other derivative instrument is treated on account of income rather than as a capital gain or loss unless the derivative is used by a Fidelity ETF as a hedge to limit its gain or loss on a specific capital asset or group of capital assets held by the Fidelity ETF. Where a Fidelity ETF uses derivatives to hedge exposure with respect to securities held on capital account and the derivatives are sufficiently linked to such securities, gains or losses realized on such derivatives will be treated as capital gains or losses.

A Fidelity ETF that invests in foreign denominated securities must calculate its adjusted cost base and proceeds of disposition in Canadian dollars based on the conversion rate on the date the securities were purchased and sold, as applicable. Capital gains realized during a taxation year are reduced by capital losses realized during the year. In certain circumstances, a capital loss realized by a Fidelity ETF may be denied or suspended and, therefore, may not be available to offset capital gains. For example, a capital loss realized by a Fidelity ETF will be suspended if, during

the period that begins 30 days before and ends 30 days after the date on which the capital loss was realized, the Fidelity ETF (or a person affiliated with the Fidelity ETF for the purposes of the Tax Act) acquires a property that is the same as or is identical to the particular property on which the loss was realized and owns that property at the end of the period.

A trust is generally subject to a “loss restriction event” for the purposes of the Tax Act each time a person or partnership becomes a “majority-interest beneficiary” of the trust for the purposes of the Tax Act. Generally, a majority-interest means more than 50% of the fair market value of the trust held by the person or partnership and affiliates. If a Fidelity ETF experiences a loss restriction event, the taxation year of the Fidelity ETF will be deemed to end, and the Fidelity ETF will be deemed to realize its unrealized capital losses. The Fidelity ETF may elect to realize capital gains in order to offset its capital losses and non-capital losses, including undeducted losses from prior years. Any undeducted capital losses will expire and may not be deducted by the Fidelity ETF in future years and any undeducted non-capital losses in future years will be restricted, with the result that income and capital gains distributions in the future may be larger.

The Declaration of Trust provides for the automatic distribution to Unitholders of a sufficient amount of income and capital gains of the Fidelity ETF for each taxation year (including a taxation year that is deemed to end by virtue of a loss restriction event) so that the Fidelity ETF will not be liable for ordinary income tax. The Declaration of Trust provides that any such distribution is automatically reinvested in Units of a Fidelity ETF and the Units of the Fidelity ETF are immediately consolidated to the pre-distribution NAV per Unit.

Taxation of Unitholders (other than Registered Plans)

Distributions

A Unitholder is required to include in computing income for tax purposes, the amount of any income and the taxable portion of any capital gains of a Fidelity ETF (including any Management Fee Distributions) that is paid or payable to the Unitholder in the year, whether such amounts are paid in cash or reinvested in additional Units. The non-taxable portion of any capital gains of a Fidelity ETF that is paid or payable to the Unitholder in the year is not included in the Unitholder’s income and, provided the Fidelity ETF makes the appropriate designation on its tax return, does not reduce the adjusted cost base of the Unitholder’s Units of that Fidelity ETF. Any other non-taxable distribution, such as a return of capital, reduces the Unitholder’s adjusted cost base. A Unitholder is deemed to realize a capital gain to the extent that the adjusted cost base of the Unitholder’s Units would otherwise become a negative amount and the adjusted cost base is nil immediately thereafter.

Each Fidelity ETF may, and is expected to designate to the extent permitted by the Tax Act, the portion of the net income of the Fidelity ETF distributed to Unitholders that may reasonably be considered to consist of: (i) taxable dividends (including eligible dividends) received or considered to be received by the Fidelity ETF on shares of taxable Canadian corporations; and (ii) net taxable capital gains realized or considered to be realized by the Fidelity ETF. Any amount so designated is deemed for tax purposes to be received or realized by Unitholders in the year as a taxable dividend and as a taxable capital gain, respectively. The dividend gross-up and tax credit treatment normally applicable to taxable dividends (including eligible dividends) paid by a taxable Canadian corporation applies to amounts designated as taxable dividends. Taxable capital gains so designated are subject to the general rules relating to the taxation of capital gains described below. In addition, a Fidelity ETF may make designations in respect of its foreign source income, if any, so that Unitholders may be able to claim a foreign tax credit (in accordance with and subject to the general limitations under the Tax Act) for foreign taxes paid (and not deducted) by the Fidelity ETF. A loss realized by a Fidelity ETF may not be allocated to and may not be treated as a loss of the Unitholders of the Fidelity ETF.

Individuals and certain trusts may be subject to an alternative minimum tax in respect of taxable dividends (including eligible dividends) received or considered to be received from taxable Canadian corporations and realized capital gains.

Disposition of Units

Generally, a Unitholder realizes a capital gain (or loss) on the sale, redemption, exchange or other disposition of a Unit to the extent that the proceeds of disposition for the Unit exceed (or are less than) the total of the adjusted cost

base to the Unitholder of the Unit and any reasonable costs of disposition. In general, the adjusted cost base of all Units of a particular Fidelity ETF held by the Unitholder at a particular time is the total amount paid for all Units of the Fidelity ETF currently and previously held by the Unitholder (including brokerage commissions paid and the amount of reinvested distributions) less any distributions of capital and less the adjusted cost base of any Units of the Fidelity ETF previously disposed of by the Unitholder. The adjusted cost base to a Unitholder of one Unit is the average adjusted cost base of all Units owned by the Unitholder as capital property at that time. A consolidation of Units after the reinvestment of a distribution in additional Units will not be regarded as a disposition of Units.

When a Unitholder redeems Units of a Fidelity ETF, the Fidelity ETF may distribute income and capital gains to the Unitholder as partial payment of the redemption price. Any income or capital gains so distributed must be included in the calculation of the Unitholder's income in the manner described above. As described under "Risk Factors - Taxation Risk", the draft legislation released by the Minister on July 30, 2019 introduced amendments to the Tax Act that would (a) effective for taxation years of a Fidelity ETF beginning on or after March 19, 2019, deny the Fidelity ETF a deduction for any income of the Fidelity ETF designated to a Unitholder on a redemption of a Unit, where the Unitholder's proceeds of disposition are reduced by the designation, and (b) effective for taxation years of the Fidelity ETF beginning on or after March 20, 2020, deny the Fidelity ETF a deduction for the portion of capital gain of the Fidelity ETF designated to a Unitholder that is greater than the Unitholder's accrued gain. Given the creation date of the Fidelity ETFs, if such proposed amendments to the Tax Act are enacted in their current form, the Fidelity ETFs will not be eligible for the 2020 taxation year deferral on capital gains designations.

A Unitholder may acquire securities *in specie* from a Fidelity ETF on the redemption of Units or on the termination of the Fidelity ETF. The cost of any securities acquired by the Unitholder from the Fidelity ETF on the redemption of the Units will generally be the fair market value of the securities at that time. Unitholders who redeem Units are advised to confirm with the Manager the details of any distributions paid at the time of redemption and the fair market value of any securities received from the Fidelity ETF, and are also advised to consult with their own tax advisers.

Taxation of Capital Gains and Capital Losses

One-half of any capital gain realized by a Unitholder and the amount of any net taxable capital gains realized or considered to be realized by a Fidelity ETF and designated by the Fidelity ETF in respect of the Unitholder is included in the Unitholder's income as a taxable capital gain. One-half of a capital loss may be deducted from taxable capital gains subject to and in accordance with detailed rules in the Tax Act.

Taxation of Registered Plans

A Registered Plan that holds Units of a Fidelity ETF and the planholder, annuitant or subscriber of that Registered Plan, as the case may be, will generally not be subject to tax on the value of the Units, income or capital gains distributed by the Fidelity ETF to the Registered Plan or a gain realized by the Registered Plan on the disposition of the Units (whether payment is received in cash or by reinvestment in additional Units), provided the Units are a qualified investment under the Tax Act for the Registered Plan and, in the case of Registered Plans (other than deferred profit-sharing plans), not a prohibited investment for the Registered Plan.

Tax Implications of the Fidelity ETFs' Distribution Policy

A portion of the NAV of a Unit of a Fidelity ETF may reflect income and/or capital gains accrued or realized by the Fidelity ETF before the Unit was acquired by a Unitholder. The income and taxable portion of capital gains paid or payable to a Unitholder must be included in the calculation of the Unitholder's income in the manner described above, even if it relates to a period before the Unitholder owned the Units and may have been reflected in the price paid by the Unitholder for the Units. In particular, this may be the case when Units are acquired late in the year, or on or before the date on which a distribution will be paid.

INTERNATIONAL INFORMATION REPORTING

Generally, Unitholders will be required to provide their dealer with information related to their citizenship and tax residence and, if applicable, a foreign tax identification number. If a Unitholder is identified as a U.S. citizen or a

foreign (including U.S.) tax resident, or if the Unitholder fails to provide the required information and indicia of U.S. or non-Canadian status is present, details about the Unitholder and their investment in a Fidelity ETF will be reported to the CRA, unless the investment is held within a Registered Plan. The CRA will provide that information to the U.S. Internal Revenue Service (“**IRS**”) (in the case of U.S. citizens or tax residents) or the relevant tax authority of any country that is a signatory of the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information or that has otherwise agreed to a bilateral information exchange with Canada.

The U.S. Internal Revenue Service issued a clarification to a set of existing tax rules that resulted in Canadian mutual funds (such as the Fidelity ETFs) generally being classified as corporations for U.S. tax purposes. As a result, U.S. taxpayers (including Canadian residents who are U.S. citizens) who hold Canadian mutual funds generally are subject to the Passive Foreign Investment Company (“**PFIC**”) rules, including an annual requirement to report each PFIC investment, held directly or indirectly, on a separate U.S. tax form. If you are a U.S. citizen, you should consult your tax advisor about the U.S. tax rules that apply to you and the advisability of making (or refraining from making) any U.S. tax election such as a Qualified Electing Fund (“**QEF**”) election.

Generally, the QEF election more closely aligns the Canadian and U.S. tax treatment of an investment in Canadian mutual funds. To assist investors who choose to make QEF elections, the Manager will make available PFIC Annual Information Statements (“**AIS**”) for the Fidelity ETFs. Investors should consult their dealer or financial advisors about obtaining their AIS from the Manager.

ELIGIBILITY FOR INVESTMENT

In the opinion of Borden Ladner Gervais LLP, the Units of a Fidelity ETF will be a qualified investment under the Tax Act for a Registered Plan at any time that the Fidelity ETF qualifies or is deemed to qualify as a “mutual fund trust” under the Tax Act or that the Units are listed on a “designated stock exchange” within the meaning of the Tax Act, which includes the NEO Exchange.

A Unit of a Fidelity ETF that is a qualified investment under the Tax Act for a Registered Plan may nevertheless be a prohibited investment under the Tax Act for a Registered Plan (other than a deferred profit-sharing plan). Generally, the Units of a Fidelity ETF will not be a prohibited investment under the Tax Act for a Registered Plan unless the planholder, annuitant or subscriber, as the case may be (together with non-arm’s length partnerships and persons, including the Registered Plan) directly or indirectly holds Units having a fair market value of 10% or more of the Fidelity ETF. However, under a safe harbour for newly established mutual funds, Units of a Fidelity ETF will not be a prohibited investment under the Tax Act for a Registered Plan at any time during the first 24 months of the Fidelity ETF’s existence if the Fidelity ETF is or is deemed to be a mutual fund trust under the Tax Act and either remains in substantial compliance with the requirements of NI 81-102 or follows a reasonable policy of investment diversification throughout that period. Investors should consult their own tax advisers for advice on whether Units would be a prohibited investment for their Registered Plans.

On a distribution *in specie* from a Fidelity ETF on the redemption of Units or on the termination of the Fidelity ETF, a Registered Plan will acquire securities. The Registered Plan and the planholder, annuitant or subscriber of the Registered Plan, as the case may be, will generally not be subject to tax on the value of those securities, income received by the Registered Plan from those securities or gains realized by the Registered Plan on the disposition of those securities, provided each of those securities is a qualified investment under the Tax Act for the Registered Plan at all times that the security is held by the Registered Plan and, in the case of Registered Plans (other than deferred profit-sharing plans), not a prohibited investment for the Registered Plan. Investors should consult their own tax advisers for advice on whether or not such securities would be qualified investments and not prohibited investments for their Registered Plans.

ORGANIZATION AND MANAGEMENT DETAILS OF THE FIDELITY ETFS

Manager of the Fidelity ETFs

Fidelity Investments Canada ULC, a registered portfolio manager and investment fund manager, is the trustee, manager and portfolio manager of the Fidelity ETFs. The head office of the Fidelity ETFs and the Manager is located at 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7.

Duties and Services Provided by the Manager

Pursuant to the Management Agreement, the Manager has been appointed as the investment fund manager of the Fidelity ETFs and has agreed to provide, or arrange for the provision of, all general management and administrative services required by each Fidelity ETF in its day-to-day operations, including bookkeeping, record-keeping and other administrative services for the Fidelity ETFs. The Manager may delegate all or some of its powers, provided that the Manager shall be fully liable to each Fidelity ETF in the event of a failure of such persons to discharge the duties of the Manager under the Management Agreement, and shall require such persons to perform their services to a standard of care that is at least as high as that imposed on the Manager under the Management Agreement.

The Manager is responsible for providing management, administrative and portfolio advisory and investment management services to the Fidelity ETFs. The Manager's duties include, without limitation,

- (i) approving the expenses of the Fidelity ETFs and the payment of expenses on behalf of the Fidelity ETFs that are the responsibility of the Fidelity ETFs;
- (ii) providing office accommodation, office facilities and personnel;
- (iii) preparing financial statements and other financial and accounting information as required by the Fidelity ETFs;
- (iv) ensuring that the Fidelity ETFs comply with all securities legislation, regulations, rules, policies and guidelines applicable to the Fidelity ETFs or the Manager, including stock exchange listing requirements and stock exchange rules;
- (v) delivering or causing to be delivered, all statements, reports, notices, announcements, proxies and other documents to Unitholders, including notices of Unitholder meetings, payment of distributions and dividends, tax disclosure documents and other announcements to Unitholders;
- (vi) determining the amount of distributions to be made by the Fidelity ETFs;
- (vii) communicating with Unitholders and preparing for and holding any meetings of Unitholders as required;
- (viii) ensuring that the NAV per Unit is calculated and published;
- (ix) administering the issue, exchange and redemption of Units;
- (x) negotiating contractual agreements with third party providers of services, including the Sub-advisors, the Designated Brokers, the Dealers, the Index Provider, the Custodian, the Registrar and Transfer Agent, the Fund Administrator, the auditor, legal counsel and printers; and
- (xi) providing, or causing to be provided, all other services necessary or desirable to conduct and operate the day-to-day business of the Fidelity ETFs.

Details of the Management Agreement

Pursuant to the Management Agreement, the Manager is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Fidelity ETFs and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in the circumstances. The Manager will be liable to each Fidelity ETF in the event of any failure to meet this standard of care by the Manager, any associate or affiliate of the Manager or any of its or their respective directors, officers or employees, but will not otherwise be liable to the Fidelity ETF in respect of any matter.

The Management Agreement may be terminated by any of the Fidelity ETFs or by the Manager upon 60 days' prior written notice. In addition, either party may terminate the Management Agreement as a result of the insolvency or default of the other party, if the other party ceases to carry on business or if the other party commits any material breach of the Management Agreement and fails to remedy such breach within 30 days after receiving written notice requiring the same to be remedied. The Management Agreement may not be assigned by either party without consent, unless the assignment is to a company affiliated with the Manager within the meaning of the *Securities Act* (Ontario).

The Manager is entitled to fees for its services as manager under the Management Agreement as described under "**Fees and Expenses – Management Fee**". The Manager is indemnified by each Fidelity ETF for any legal fees, judgments and amounts paid in settlement, actually and reasonably incurred by the Manager in connection with the services provided by the Manager to a Fidelity ETF, if: (i) those fees, judgments and amounts were not incurred as a result of a breach by the Manager of the standard of care set out in the Management Agreement; and (ii) the Fidelity ETF has reasonable grounds to believe that the action or inaction that caused the payment of the fees, judgments and amounts paid in settlement was in the best interests of the Fidelity ETF.

The management services of the Manager under the Management Agreement are not exclusive and nothing in the Management Agreement prevents the Manager from providing similar services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the Fidelity ETFs) or from engaging in other activities. See "**Conflicts of Interest**" below.

Executive Officers and Directors of the Manager of the Fidelity ETFs

The name and municipality of residence of each of the directors and executive officers of the Manager, and their principal occupations, are as follows:

Name and Municipality of Residence	Position with the Manager	Principal Occupation Within Preceding Five Years

Don Wilkinson Mississauga, Ontario	Director	Self-employed advisor. Prior thereto, Partner, Deloitte Canada.

Portfolio Manager

Fidelity Investments Canada ULC, a registered portfolio manager, is the portfolio manager of the Fidelity ETFs. Under the Management Agreement, the Portfolio Manager is responsible for providing portfolio advisory and investment management services to the Fidelity ETFs and has the authority to engage the services of sub-advisors in connection with any investment advice and/or portfolio management services required by the Fidelity ETFs. The Portfolio Manager has engaged the services of Geode as sub-advisor of the Fidelity ETFs.

Sub-advisor

Geode

Geode Capital Management, LLC has been retained by the Portfolio Manager pursuant to the Geode Sub-advisory Agreement to provide all portfolio management services to the Fidelity ETFs.

Geode is a registered investment adviser in the United States with offices based in Boston, Massachusetts.

The individuals at Geode principally responsible for providing advice to each of the Fidelity ETFs managed by Geode are as follows:

Name and Title	Fidelity ETF	With Geode Since	Principal Occupation Within Preceding Five Years
Louis Bottari BS (co-lead manager)	Each of the Fidelity ETFs	2008	Since joining Geode in 2008, Mr. Bottari has worked as an Assistant Portfolio Manager, Portfolio Manager and Senior Portfolio Manager.

Name and Title	Fidelity ETF	With Geode Since	Principal Occupation Within Preceding Five Years
Deane Gyllenhaal BS, MBA (co-lead Manager)	Each of the Fidelity ETFs	2014	Since joining Geode in 2014, Mr. Gyllenhaal has worked as a Senior Portfolio Manager. Prior to joining Geode, Mr. Gyllenhaal was a Senior Portfolio Manager at Hartford Investment Management from 2006 to 2014.
Dan Glenn BS, MBA (co-lead manager)	Each of the Fidelity ETFs	2018	Since joining Geode in 2018, Mr. Glenn has worked as a Portfolio Manager. Prior to joining Geode, Mr. Glenn was an Associate Portfolio Manager at ProShares from 2009 to 2018.
Payal Gupta BS, MBA (co-lead manager)	Each of the Fidelity ETFs	2019	Since joining Geode in 2019, Ms. Gupta has worked as a Portfolio Manager. Prior to joining Geode, Ms. Gupta was a Senior Portfolio Manager at SSGA from 2005 to 2019.
Peter Matthew BS (co-lead manager)	Each of the Fidelity ETFs	2007	Since joining Geode in 2007, Mr. Matthew has worked as a Senior Operations Associate, Portfolio Manager Assistant, Assistant Portfolio Manager and Portfolio Manager.
Thomas O'Brien BS, MBA, CFA (co-lead manager)	Each of the Fidelity ETFs	2019	Since joining Geode in 2019, Mr. O'Brien has worked as a Portfolio Manager. Prior to joining Geode, Mr. O'Brien was a Senior Global Equity Portfolio Manager at The Northern Trust from 2004 to 2019.

Details of the Sub-advisory Agreement

Geode Sub-advisory Agreement

Under the terms of the Geode Sub-advisory Agreement, Geode is responsible for providing all portfolio management services in respect of each Fidelity ETF, other than in respect of currency hedging activities, as applicable, and for ensuring that the trading and investment activities of each Fidelity ETF are in compliance with each Fidelity ETF's investment objective, strategies and restrictions. In connection with its services, Geode identifies and makes all day-to-day investment decisions relating to the securities to be held by the Fidelity ETFs, including the securities to be included in each Basket of Securities and, to the extent necessary, executes portfolio transactions.

Geode is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of each of the Fidelity ETFs with a view to meeting the investment objectives of each of the Fidelity ETFs and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Geode Sub-advisory Agreement provides that, so long as Geode has met its standard of care, it will not be liable for any loss, damage or expense from or relating to the adoption or implementation of any investment program or policy, the purchase, sale or retention of any portfolio investment in the Fidelity ETF or any error of judgment or other performance or non-performance by Geode of its duties. Geode will incur liability, however, in cases of bad faith, fraud or gross negligence in the performance of its duties, failure to meet its standard of care, diligence and skill as prescribed in the Geode Sub-advisory Agreement or any reckless disregard by Geode of its obligations and duties under the Geode Sub-advisory Agreement.

Either Geode or the Portfolio Manager may terminate the Geode Sub-advisory Agreement at any time without penalty on 90 days' prior written notice. In addition, either party may terminate the Geode Sub-advisory Agreement immediately: (i) in the event of a material breach of the Geode Sub-advisory Agreement that has or could have an adverse impact on the reputation of the non-breaching party; (ii) in the event of a material breach of the Geode Sub-advisory Agreement that has not been rectified by the party that has breached the Geode Sub-advisory Agreement within 30 days of being provided with notice of such breach by the non-breaching party; or (iii) if the other party becomes bankrupt or insolvent.

Brokerage Arrangements

Decisions as to the purchase and sale of portfolio securities and decisions as to the execution of all portfolio transactions, including selection of market, dealer or broker, and the negotiation, where applicable, of commissions, are made by the relevant Sub-advisor.

In selecting brokers, many factors are considered in the context of a particular trade and in regard to the applicable Sub-advisor's overall responsibilities with respect to the Fidelity ETFs and to other investment accounts the Sub-advisor manages. Factors deemed relevant may include the following: (i) price; (ii) size and type of the transaction; (iii) reasonableness of compensation to be paid; (iv) speed and certainty of trade executions, including the broker's willingness to commit capital; (v) nature of markets on which the security is to be purchased or sold; (vi) the availability of liquidity in the security; (vii) reliability of a market center or broker; (viii) overall trading relationship with the broker; (ix) assessment of whether and how closely the broker will likely follow instructions; (x) degree of anonymity that a particular broker or market can provide; (xi) the potential for avoiding market impact; (xii) the execution services rendered on a continuing basis; (xiii) the execution efficiency, settlement capability and financial condition of the firm; (xiv) arrangements for payment of fund expenses, if applicable; and (xv) the provision of additional brokerage and research products and services, if applicable. Notwithstanding the factors listed above, in effecting portfolio transactions, overall service and prompt execution of orders on favourable terms are of primary consideration.

Portfolio transactions may be executed with brokers who provide research services to assist a Sub-advisor with its investment management responsibilities. Such services include reports and analysis that are used to assist with investment decisions in the following subject areas: economic, industry, company, municipal, sovereign, legal or political research reports, market colour commentary, company meeting facilitation, compilation of securities prices, earnings, dividends and similar data, quotation services, data, information and other services, analytical computer software and services and investment recommendations.

Each Sub-advisor has established procedures to assist it in making a good faith determination that its clients, including the applicable Fidelity ETFs, receive a reasonable benefit considering the value of research goods and services and the amount of brokerage commissions paid.

A Sub-advisor may enter into commission sharing arrangements ("CSA") whereby the applicable Fidelity ETFs pay a bundled commission into a CSA account maintained by the broker for order execution and research goods and services. The Sub-advisor directs the broker to use the CSA account to pay for research goods and services. Research goods and services must be used to assist with investment or trading decisions or with effecting securities transactions. The research goods and services that are purchased through CSAs generally support broad categories of investment mandates. In order to ensure that the Fidelity ETFs are receiving reasonable benefit from CSAs, each Sub-advisor uses an annual budget process to ensure that: (i) only eligible research goods and services are purchased; (ii) such research goods and services add value to the Sub-advisor's quantitative or qualitative reviews and are not duplicated by other goods or services; (iii) the cost of such research goods and services are reasonable given the nature of the investment mandates, the availability of alternative services and the extent to which the research good or service is used; and (iv) the research good or service is paid for by the Fidelity ETFs which will benefit from the research goods and services.

A Sub-advisor may place trades with certain affiliated brokers, and in doing so determine that their trade execution capabilities and costs are comparable to those of non-affiliated, qualified brokerage firms. In addition, a Sub-advisor may place trades with brokers that use affiliated companies as a clearing agent. With respect to client trades that are executed by affiliates, the Sub-advisor seeks to ensure that the trade execution obtained is comparable to that of unaffiliated brokers and that the continued use of such affiliate is appropriate.

Where brokerage transactions involving client brokerage commissions of the Fidelity ETFs have been or might be directed to a broker in return for the provision of any good or service by the broker or a third party, other than order execution, the names of such dealers or third parties will be provided upon request by contacting Fidelity at 1-800-263-4077 or via email at cs.english@fidelity.ca (for assistance in English) or sc.francais@fidelity.ca (for assistance in French).

Investment decisions for each Fidelity ETF are made independently from those of other funds or investment accounts, including proprietary accounts advised by a Sub-advisor. The same security is often held in the portfolio of more than one of these funds or investment accounts. Simultaneous transactions are inevitable when several funds and investment accounts are managed by the same sub-advisor, particularly when the same security is suitable for the investment objective of more than one fund or investment account. Each Sub-advisor has established allocation policies for its various funds and investment accounts to ensure allocations are appropriate given its clients' differing investment objectives and other considerations.

Conflicts of Interest

The management services of the Manager under the Management Agreement are not exclusive and nothing in the Management Agreement prevents the Manager from providing similar management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the Fidelity ETFs) or from engaging in other activities. The portfolio management services of each Sub-advisor under the applicable Sub-advisory Agreement are not exclusive and nothing in the Sub-advisory Agreement prevents the Sub-advisor from providing similar portfolio management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the Fidelity ETFs) or from engaging in other activities.

Directors and officers of the Manager and of the Sub-advisors must obtain the prior approval of the Manager or the applicable Sub-advisor, as the case may be, in order to engage in any outside business activities. One of the activities that requires approval is acting as a director or officer of another company (an “**Issuer**”). A Fidelity ETF may purchase securities of an Issuer if this transaction is permitted by law and the Manager or the applicable Sub-advisor, as the case may be, has approved this transaction. This approval will be given only if the Manager is satisfied that there has been proper resolution of any potential conflicts of interest.

No Designated Broker or Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus and, as such, the Designated Brokers and the Dealers do not perform many of the usual underwriting activities in connection with the distribution by the Fidelity ETFs of their Units under this prospectus. Units of a Fidelity ETF do not represent an interest or an obligation of any Designated Broker, any Dealer or any affiliate thereof and a Unitholder does not have any recourse against any such parties in respect of amounts payable by a Fidelity ETF to such Designated Brokers or Dealers.

One or more registered dealers act or may act as a Designated Broker, a Dealer and/or a market maker. These relationships may create actual or perceived conflicts of interest that Unitholders should consider in relation to an investment in a Fidelity ETF. In particular, by virtue of these relationships, these registered dealers may profit from the sale and trading of Units. The Designated Broker, as market maker of a Fidelity ETF in the secondary market, may therefore have economic interests that differ from, and may be adverse to, those of Unitholders. Any such registered dealer and its affiliates may, at present or in the future, engage in business with a Fidelity ETF, with the issuers of securities making up the investment portfolio of a Fidelity ETF or with the Manager or any funds sponsored by the Manager or its affiliates, including by making loans, entering into derivative transactions or providing advisory or agency services. In addition, the relationship between any such registered dealer and its affiliates and the Manager and its affiliates may extend to other activities, such as being part of a distribution syndicate for other funds sponsored by the Manager or its affiliates.

Independent Review Committee

As required by NI 81-107, the Manager has established an IRC to review all conflicts of interest matters identified and referred to the IRC by the Manager relating to the investment funds managed by the Manager, including the Fidelity ETFs. The IRC reviews and gives its approval or recommendations as to the conflict of interest matters referred to it. A conflict of interest matter is a situation where a reasonable person would consider the Manager or an entity related to the Manager to have an interest that conflicts with the Manager's ability to act in good faith and in the best interest of the Fidelity ETFs. The IRC is also required to approve certain mergers involving the Fidelity ETFs and any change of the auditor of the Fidelity ETFs.

The IRC must have all independent members. The Manager considers that an individual is independent if the individual is not a director, officer, or employee of any of the Manager, a Sub-advisor, an affiliate of the Manager or

an affiliate of a Sub-advisor. In addition, the individual must be independent of management and free from any interest and any business or other relationship that could, or could reasonably be perceived to, materially interfere with the individual's ability to act with the view to the best interest of the Fidelity ETFs.

The members of the IRC are as follows:

James E. Cook (Chair)
Douglas Nowers
Richard J. Kostoff
Frances Horodelski

The IRC has a written charter that sets out its powers, duties, and responsibilities. Additionally, pursuant to NI 81-107, the IRC assesses, at least annually, the adequacy and effectiveness of the following:

- (i) the Manager's policies and procedures regarding conflict of interest matters;
- (ii) any standing instructions that the IRC gave to the Manager for conflict of interest matters related to the Fidelity ETFs;
- (iii) the compliance of the Manager and each Fidelity ETF with any conditions imposed by the IRC in a recommendation or approval it has provided to the Manager; and
- (iv) the independence and compensation of its members, the IRC's effectiveness as a committee and the contribution of each member to the IRC.

The IRC prepares a report for Unitholders, at least annually, of its activities. Such report is made available on the Manager's website at www.fidelity.ca or, at the request of a Unitholder and at no cost, by contacting the Manager at 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7, or by sending an e-mail to cs.english@fidelity.ca (for assistance in English) or sc.francais@fidelity.ca (for assistance in French).

Each member of the IRC is paid an annual retainer of \$55,000 (\$65,000 for the Chair) by the Manager to serve on the IRC and a fee of \$2,500 (\$4,000 for the Chair) for each meeting attended. A portion of the retainer and meeting fees paid to each member is allocated to each investment fund managed by the Manager, including each Fidelity ETF, and depends, among other things, on the total number of investment funds managed by the Manager for which such member acted as an IRC member during the fiscal year.

Trustee

Pursuant to the Declaration of Trust, the Manager is also the trustee of the Fidelity ETFs.

The trustee may resign upon 90 days' notice to Unitholders and the Manager. If the trustee resigns or if it becomes incapable of acting as trustee, the trustee may appoint a successor trustee and its resignation shall become effective upon the acceptance of such appointment by its successor. If no successor has been appointed within 90 days, the Fidelity ETFs will be terminated.

The Declaration of Trust provides that the trustee shall act honestly, in good faith and in the best interests of each Fidelity ETF and shall perform its duties to the standard of care that a reasonably prudent person would exercise in the circumstances. In addition, the Declaration of Trust contains other customary provisions limiting the liability of the trustee and indemnifying the trustee in respect of certain liabilities incurred by it in carrying out the trustee's duties.

At any time during which the Manager is the trustee, the Manager will receive no fee in respect of the provision of services as trustee.

Custodian

State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is custodian of the assets of the Fidelity ETFs pursuant to the Custodian Agreement. The Custodian has a qualified foreign sub-custodian in each jurisdiction in which the Fidelity ETFs have securities. The Custodian may terminate the Custodian Agreement at any time upon 180 days' written notice and the Manager may terminate the Custodian Agreement at any time upon 30 days' written notice.

The Custodian is entitled to receive fees from the Manager as described under “**Fees and Expenses**” and to be reimbursed for all expenses and liabilities that are properly incurred by the Custodian in connection with the activities of the Fidelity ETFs.

Securities Lending Agent

The Manager, on behalf of the Fidelity ETFs, has entered into a Securities Lending Agreement. The Securities Lending Agreement appoints and authorizes State Street Bank and Trust Company, a sub-custodian of the Fidelity ETFs, to act as agent for securities lending transactions for those Fidelity ETFs that engage in securities lending and to execute, in the applicable Fidelity ETF's name and on its behalf, securities lending agreements with borrowers in accordance with NI 81-102. The Securities Lending Agreement requires that the collateral received by a Fidelity ETF in a securities lending transaction must have a market value of not less than 102% of the value of the securities loaned. Under the Securities Lending Agreement, the Securities Lending Agent agrees to indemnify the Fidelity ETFs from certain losses incurred in connection with its failure to perform any of its obligations under the Securities Lending Agreement. The Securities Lending Agreement may be terminated at any time at the option of either party upon 30 days' prior notice to the other party.

Auditor

The auditor of the Fidelity ETFs is PricewaterhouseCoopers LLP, Chartered Professional Accountants, PwC Tower, 18 York Street, Suite 2600, Toronto, Ontario M5J 0B2.

Registrar and Transfer Agent

State Street Trust Company Canada is the registrar and transfer agent for the Units of the Fidelity ETFs. The register of the Fidelity ETFs is kept in Toronto, Ontario.

Promoter

The Manager has taken the initiative in founding and organizing the Fidelity ETFs and is, accordingly, the promoter of the Fidelity ETFs within the meaning of securities legislation of certain provinces and territories of Canada. The Manager, in its capacity as manager of the Underlying Fidelity ETFs, receives compensation from the Underlying Fidelity ETFs. See “**Fees and Expenses**”.

Fund Administrator

State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is the fund administrator. The Fund Administrator is responsible for certain aspects of the day-to-day administration of the Fidelity ETFs, including NAV calculations, accounting for net income and net realized capital gains of the Fidelity ETFs and maintaining books and records with respect to each Fidelity ETF.

CALCULATION OF NET ASSET VALUE

The NAV of a Fidelity ETF is the value of all assets of that Fidelity ETF less its liabilities. The NAV and the NAV per Unit of each Fidelity ETF is calculated by the Fund Administrator on each Valuation Date, subject to any temporary suspension of the right to exchange or redeem units as described under “**Redemption of Units – Suspension of Exchanges and Redemptions**” above. If a Fidelity ETF offers different series of Units, a separate

NAV is calculated for each series of Units of the Fidelity ETF. The NAV per Unit of each series of a Fidelity ETF is calculated by dividing the NAV of the series at the close of business on a Valuation Date by the total number of Units of the series outstanding at that time. All of the Fidelity ETFs are valued, and can be bought, in Canadian dollars.

The issue, exchange or redemption of Units and the reinvestment of distributions is reflected in the next calculation of the NAV made after the time such transactions become binding. Portfolio transactions (investment purchases and sales) are reflected in the next calculation of the NAV made after the date on which they become binding. The NAV per Unit of each Fidelity ETF calculated on each Valuation Day remains in effect until the NAV per Unit of that Fidelity ETF is next calculated.

Valuation Policies and Procedures of the Fidelity ETFs

The value of the portfolio securities and other assets of each Fidelity ETF is determined by applying the following rules:

- (i) liquid assets (which term includes cash on hand or on deposit or on call, bills and demand notes and accounts receivable, prepaid expenses, cash dividends declared and interest accrued and not yet received) will be valued at the full amount thereof unless the Manager determines an otherwise fair value;
- (ii) securities listed on a public securities exchange are valued at their last sale or closing price as reported on that Valuation Date or, if no sale is reported to have taken place on that Valuation Date and there is no reported closing price, at the closing bid price on that Valuation Date;
- (iii) unlisted securities traded on an over-the-counter market are valued at the closing bid price on that Valuation Date;
- (iv) restricted securities that are not illiquid are valued at the lesser of:
 - (a) the value thereof based on reported quotations in common use on that Valuation Date; and
 - (b) that percentage of the market value of securities of the same class, the trading of which is not restricted or limited by reason of any representation, undertaking or agreement or by law, equal to the percentage that the Fidelity ETF's acquisition cost was of the market value of such securities at the time of acquisition, provided that a gradual taking into account of the actual value of the securities may be made where the date on which the restrictions will be lifted is known;
- (v) long positions in clearing corporation options, options on futures, over-the-counter options, debt-like securities and listed warrants shall be valued at the fair value thereof;
- (vi) where a covered clearing corporation option, option on futures or over the counter option is written by the Fidelity ETF, the premium received by the Fidelity ETF will be reflected as a deferred credit which will be valued at an amount equal to the current market value of the clearing corporation option, option on futures or over-the-counter option which would have the effect of closing the position; any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment; the deferred credit shall be deducted in arriving at the NAV of the Fidelity ETF; the securities, if any, which are the subject of a written covered clearing corporation option or over-the-counter option will be valued in the manner described above for listed securities;
- (vii) securities quoted in currencies other than the Canadian dollar are translated to Canadian dollars using the closing rate of exchange as quoted by customary banking sources on that Valuation Date;
- (viii) the value of a futures contract, forward contract or swap shall be the gain or loss, if any, that would arise as a result of closing the position in the futures contract or forward contract or swap, as the case may be, on that Valuation Date unless daily limits are in effect, in which case fair market value shall be based on the current value of the underlying interest;

- (ix) where a Fidelity ETF owns securities issued by another investment fund, the securities of the other investment fund are valued at either the price calculated by the manager of the other investment fund for the applicable series of securities of the other investment fund for that Valuation Date in accordance with the constating documents of the other investment fund if such securities are acquired by the Fidelity ETF from the other investment fund or at their close price or last sale price reported before the Valuation Time on a Valuation Date if such securities are acquired by the Fidelity ETF on a public securities exchange;
- (x) if securities are interlisted or traded on more than one exchange or market the Manager shall use the last sale price or the closing bid price, as the case may be, reported on the exchange or market determined by the Manager to be the principal exchange or market for such securities;
- (xi) margin paid or deposited in respect of futures contracts, forward contracts, and swaps shall be reflected as an account receivable and margin consisting of assets other than cash shall be noted as held as margin;
- (xii) short-term securities may be valued using market quotations, amortized cost or original cost plus accrued interest, unless the Manager determines that these no longer approximate market value of the assets; and
- (xiii) notwithstanding the foregoing, securities and other assets for which market quotations are, in the Manager's opinion, inaccurate, unreliable, not reflective of all available material information or not readily available are valued at their fair value, as determined by the Manager.

The Declaration of Trust contains details of the method of determining the value of liabilities to be deducted in determining the NAV of each Fidelity ETF. In arriving at the NAV, the Manager will generally use the latest reported information available to it on the Valuation Day.

The financial statements of each Fidelity ETF are required to be prepared in compliance with IFRS. The Fidelity ETFs' accounting policies for measuring the fair value of their investments under IFRS are identical to those used in measuring the NAV per Unit for transactions with Unitholders. However, if the closing price of a security of a Fidelity ETF falls outside of the bid and ask price spread of the security, the Manager may adjust the net assets attributable to holders of redeemable Units in the Fidelity ETF's financial statements. As a result, the NAV per Unit for transactions with Unitholders may be different from the net assets attributable to securityholders of that series of Units that is reported in such Fidelity ETFs' financial statements under IFRS.

Reporting of Net Asset Value

The aggregate NAV of each Fidelity ETF and the NAV per Unit is available to the public on the Manager's website at www.fidelity.ca.

ATTRIBUTES OF THE UNITS

Description of the Securities Distributed

Each Fidelity ETF is authorized to issue an unlimited number of Units, each of which represents an equal, undivided interest in the Units' proportionate share of the assets of the Fidelity ETF.

On December 16, 2004, the *Trust Beneficiaries' Liability Act, 2004* (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises (i) the trust is a reporting issuer under the *Securities Act* (Ontario); and (ii) the trust is governed by the laws of Ontario. Each Fidelity ETF is a reporting issuer under the *Securities Act* (Ontario) and each Fidelity ETF is governed by the laws of Ontario by virtue of the provisions of the Declaration of Trust.

Certain Provisions of the Units

Each Unit held by a Unitholder entitles that Unitholder to one vote at all meetings of Unitholders. Each Unit is entitled to participate equally with all other Units with respect to all distributions made by the Fidelity ETF to Unitholders,

other than Management Fee Distributions and amounts paid on the exchange or redemption of Units. Units are issued only as fully paid and are non-assessable.

On any Trading Day, Unitholders may exchange a minimum of a Prescribed Number of Units (and any additional multiple thereof) for Baskets of Securities and cash, only cash or other securities and cash, at the discretion of the Manager. See “**Redemption of Units – Exchange of Prescribed Number of Units**”.

On any Trading Day, Unitholders may redeem Units in any whole number for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the NEO Exchange on the effective day of the redemption, subject to a maximum redemption price of the NAV per Unit. See “**Redemption of Units – Redemption of Units in any Number for Cash**”.

Modification of Terms

All rights attached to the Units may only be modified, amended, or varied in accordance with the terms of the Declaration of Trust. See “**Unitholder Matters – Amendments to the Declaration of Trust**”.

The Manager may amend the Declaration of Trust from time to time to redesignate the name of a Fidelity ETF or to create a new class or series of units of a Fidelity ETF without notice to existing Unitholders, unless such amendment in some way affects the existing Unitholders’ rights or the value of their investment.

UNITHOLDER MATTERS

Meeting of Unitholders

Except as otherwise required by law, meetings of Unitholders of a Fidelity ETF will be held if called by the Manager upon written notice of not less than 21 days nor more than 50 days before the meeting.

Matters Requiring Unitholders Approval

Under the Declaration of Trust, Unitholders are entitled to vote on any matter that pursuant to Canadian securities legislation must be submitted to Unitholders for approval. NI 81-102 requires that Unitholders of a Fidelity ETF approve the following:

- (i) any change to the basis of the calculation of a fee or expense that is charged to the Fidelity ETF or directly to its Unitholders if such change could result in an increase in charges to the Fidelity ETF or its Unitholders, except where:
 - (a) the Fidelity ETF is at arm’s length with the person or company charging the fee or expense;
 - (b) the Unitholders have received at least 60 days’ written notice before the effective date of the change; and
 - (c) the right to notice described in (b) is disclosed in the prospectus of the Fidelity ETF;
- (ii) the introduction of a fee or expense, to be charged to a Fidelity ETF or directly to its Unitholders by the Fidelity ETF or the Manager in connection with the holding of Units of the Fidelity ETF that could result in an increase in charges to the Fidelity ETF or its Unitholders (which would not include expenses associated with complying with governmental or regulatory requirements introduced after the date the Fidelity ETF was created), except where:
 - (a) the Fidelity ETF is at arm’s length with the person or company charging the fee or expense;
 - (b) the Unitholders have received at least 60 days’ written notice before the effective date of the change; and

- (c) the right to notice described in (b) is disclosed in the prospectus of the Fidelity ETF;
- (iii) any change to the Manager, unless the new manager of the Fidelity ETF is an affiliate of the Manager;
- (iv) any change to the fundamental investment objective of the Fidelity ETF;
- (v) the decrease in the frequency of the calculation of the Fidelity ETF's NAV per Unit;
- (vi) the undertaking by the Fidelity ETF of a reorganization with, or transfer of its assets to, another mutual fund, if the Fidelity ETF ceases to continue after the reorganization or transfer of assets and the transaction results in the Unitholders of the Fidelity ETF becoming securityholders in the other mutual fund, unless:
 - (a) the IRC of the Fidelity ETF has approved the change;
 - (b) the Fidelity ETF is being reorganized with, or its assets are being transferred to, another mutual fund to which NI 81-102 and NI 81-107 apply and that is managed by the Manager, or an affiliate of the Manager;
 - (c) the Unitholders have received at least 60 days' written notice before the effective date of the change;
 - (d) the right to notice described in (c) is disclosed in the prospectus of the Fidelity ETF; and
 - (e) the transaction complies with certain other requirements of applicable securities legislation; and
- (vii) the undertaking by the Fidelity ETF of a reorganization with, or acquisition of assets from, another mutual fund, if the Fidelity ETF continues after the reorganization or acquisition of assets, the transaction results in the securityholders of the other mutual fund becoming Unitholders of the Fidelity ETF and the transaction would be a material change to the Fidelity ETF.

In addition, the auditor of a Fidelity ETF may not be changed unless the IRC has approved the change and Unitholders have received at least 60 days' written notice before the effective date of the change.

Approval of Unitholders of a Fidelity ETF of any such matter will be given if a majority of the votes cast at a meeting of Unitholders of the Fidelity ETF duly called and held for the purpose of considering the same approve the related resolution.

Amendments to the Declaration of Trust

The Trustee may amend the Declaration of Trust from time to time, but it may not, without the approval of a majority of the votes of Unitholders of the Fidelity ETF voting at a meeting of Unitholders duly called for such purpose, make any amendment relating to any matter in respect of which NI 81-102 requires a meeting, as set out above, or any amendment that will adversely affect the voting rights of Unitholders.

Unitholders are entitled to one vote per Unit of the Units held on the record date established for voting at any meeting of Unitholders.

Accounting and Reporting to Unitholders

The fiscal year-end of the Fidelity ETFs is March 31. The Fidelity ETFs will deliver or make available to Unitholders (i) audited comparative annual financial statements; (ii) unaudited interim financial statements; and (iii) annual and interim MRFPs. Such documents are incorporated by reference into, and form an integral part of, this prospectus. See “**Documents Incorporated by Reference**”.

Each Unitholder will also be mailed annually, by his, her or its broker, no later than March 31, information necessary to enable such Unitholder to complete a Canadian income tax return with respect to amounts paid or payable by each Fidelity ETF owned by such Unitholder in respect of the preceding taxation year of such Fidelity ETF.

The Manager will ensure that each Fidelity ETF complies with all applicable reporting and administrative requirements. The Manager will also ensure that adequate books and records are kept reflecting the activities of each Fidelity ETF. A Unitholder or his, her or its duly authorized representative has the right to examine the books and records of the applicable Fidelity ETF during normal business hours at the offices of the Fund Administrator. Notwithstanding the foregoing, a Unitholder shall not have access to any information that, in the opinion of the Manager, should be kept confidential in the interests of the Fidelity ETFs.

Permitted Mergers

A Fidelity ETF may, without Unitholder approval, enter into a merger or other similar transaction that has the effect of combining that Fidelity ETF with any other investment fund or funds that have investment objectives, valuation procedures and fee structures that are similar to the Fidelity ETF, subject to

- (i) approval of the merger by the IRC;
- (ii) compliance with certain merger pre-approval conditions set out in section 5.6 of NI 81-102; and
- (iii) written notice being sent to Unitholders at least 60 days before the effective date of the merger.

In connection with any such merger, the merging funds will be valued at their respective NAVs and Unitholders of the Fidelity ETF will be offered the right to redeem their Units for cash at the applicable NAV per Unit.

TERMINATION OF THE FIDELITY ETFS

A Fidelity ETF may be terminated by the Manager on at least 60 days' notice to Unitholders of such termination and the Manager will issue a press release in advance thereof. The Manager may also terminate a Fidelity ETF if the Trustee resigns or becomes incapable of acting and is not replaced.

Upon such termination, the securities held by the Fidelity ETF, cash and other assets remaining after paying or providing for all liabilities and obligations of the Fidelity ETF and any termination-related expenses payable by the Fidelity ETF shall be distributed pro rata among the Unitholders of the Fidelity ETF.

The rights of Unitholders to exchange and redeem Units described under “**Redemption of Units**” will cease as and from the date of termination of that Fidelity ETF.

RELATIONSHIP BETWEEN THE FIDELITY ETFS AND DEALERS

The Manager, on behalf of the Fidelity ETFs, may enter into various continuous distribution dealer agreements with registered dealers (that may or may not be Designated Brokers) pursuant to which the Dealers may subscribe for Units of one or more of the Fidelity ETFs as described under “**Purchases of Units – Issuance of Units**”.

No Designated Broker or Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus and, as such, the Designated Brokers and the Dealers do not perform many of the usual underwriting activities in connection with the distribution by the Fidelity ETFs of their Units under this prospectus. The Fidelity ETFs have obtained exemptive relief from the Canadian securities regulatory authorities to relieve them from the requirement that this prospectus contain a certificate of the underwriter or underwriters.

PRINCIPAL HOLDERS OF SECURITIES OF THE FIDELITY ETFS

As at January 12, 2021, each Fidelity ETF was created with an initial contribution of \$120 from the Manager. As at the date of this prospectus, the Manager holds all of the issued and outstanding Units of each Fidelity ETF.

PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

Geode Proxy Voting Disclosure

The Manager, in its capacity as Portfolio Manager to the Fidelity ETFs, has retained Geode, pursuant to the Geode Sub-advisory Agreement, to manage the proxy voting on behalf of the Fidelity ETFs sub-advised by Geode, in accordance with Geode's proxy voting guidelines (the "**Geode Guidelines**"). The following is a description of the general principles followed by Geode in respect of voting securities held by the Fidelity ETFs sub-advised by Geode. Details of the specific proxy voting guidelines followed by Geode are set out in the Geode Guidelines.

General Principles

- (i) All proxy votes shall be considered and made in a manner consistent with the best interests of Geode's clients (including shareholders of mutual fund clients) without regard to any other relationship, business or otherwise, between the portfolio company subject to the proxy vote and Geode or its affiliates.
- (ii) Geode seeks to maximize the value of investments of the Fidelity ETFs, which it believes will be furthered through (1) accountability of a company's management and directors to its shareholders, (2) alignment of the interests of management with those of shareholders (including through compensation, benefit and equity ownership programs), and (3) increased disclosure of a company's business and operations. Geode reserves the right to override any of its proxy voting policies with respect to a particular shareholder vote when such an override is, in Geode's best judgment, consistent with the overall principle of voting proxies in the best long-term economic interests of Geode's clients (including the Fidelity ETFs).
- (iii) As a general matter: (1) proxies will be voted FOR incumbent members of a board of directors and FOR routine management proposals, except as otherwise addressed under the Geode Guidelines; (2) shareholder and non-routine management proposals addressed by the Geode Guidelines will be voted as provided in the Geode Guidelines; and (3) shareholder and non-routine management proposals not addressed by the Geode Guidelines will be evaluated and voted by members of Geode's Operations Committee based on fundamental analysis and/or research and recommendations provided by an established commercial proxy advisory service, other third-party service providers, appropriate departments within Geode, and the oversight of Geode's Operations Committee.
- (iv) When voting the securities of non-U.S. issuers, Geode will evaluate proposals in accordance with the Geode Guidelines but will also take local market standards and best practices into consideration. Geode may also limit or modify its voting at certain non-U.S. meetings (e.g., if shares are required to be blocked or reregistered in connection with voting).

Fund of Fund Voting

When a Fidelity ETF invests in an Underlying Fidelity ETF, Geode will not vote those securities of the Underlying Fidelity ETF held by the Fidelity ETF. Instead, where applicable, the Manager may arrange for such securities of the Underlying Fidelity ETF to be voted by the beneficial holders of the Fidelity ETF. When a Fidelity ETF invests in an underlying fund that is not managed by the Manager, Geode will vote in the same proportion as all other unitholders of such underlying fund.

The policies and procedures relating to proxy voting, including the Geode Guidelines, are available on request, at no cost, by calling the Manager at 1-800-263-4077, by sending the Manager an e-mail at cs.english@fidelity.ca (for assistance in English) or sc.francais@fidelity.ca (for assistance in French) or on the Manager's website at www.fidelity.ca. Each Fidelity ETF's proxy voting record for the most recent period ended June 30 of each year is available free of charge to any Unitholder of the Fidelity ETF on request at any time after August 31 of that year. It can also be viewed on the Manager's website at www.fidelity.ca.

MATERIAL CONTRACTS

The following contracts can reasonably be regarded as material to purchasers of Units:

- (i) Declaration of Trust;
- (ii) Management Agreement; and
- (iii) Custodian Agreement

Copies of the agreements referred to above may be inspected during business hours at the principal office of the Manager.

LEGAL AND ADMINISTRATIVE PROCEEDINGS

The Fidelity ETFs are not involved in any legal proceedings, nor is the Manager aware of existing or pending legal or arbitration proceedings involving any Fidelity ETF.

EXPERTS

Borden Ladner Gervais LLP, legal counsel to the Fidelity ETFs and the Manager, has provided certain legal opinions regarding the principal Canadian federal income tax considerations that apply to an investment in the Units by a Canadian resident individual and by a Registered Plan. See “**Income Tax Considerations**” and “**Eligibility for Investment**”.

PricewaterhouseCoopers LLP, the auditor of the Fidelity ETFs, has consented to the use of its report dated January 12, 2021 to the Unitholder and Trustee of the Fidelity ETFs on each of their statements of financial position as at January 12, 2021 and the related notes thereto, incorporated by reference herein.

PricewaterhouseCoopers LLP has confirmed that it is independent with respect to the Fidelity ETFs within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario.

EXEMPTIONS AND APPROVALS

Each Fidelity ETF has obtained exemptive relief from the Canadian securities regulatory authorities to permit:

- (i) the purchase by a Unitholder of more than 20% of the Units of any Fidelity ETF without regard to the takeover bid requirements of applicable Canadian securities legislation;
- (ii) a Fidelity ETF to borrow cash in an amount not exceeding 5% of the net assets of the Fidelity ETF for a period not longer than 45 days and, if required by the lender, to provide a security interest over any of its portfolio assets as a temporary measure to fund the portion of any distribution payable to Unitholders that represents amounts that have not yet been received by the Fidelity ETF; and
- (iii) the Fidelity ETFs to prepare a prospectus without including a certificate of an underwriter.

In addition, each Fidelity ETF may rely on exemptive relief obtained by Fidelity’s mutual funds to permit them to:

- (i) invest up to 10% of a Fidelity ETF’s NAV in precious metals and other physical commodities on an unlevered basis through Commodity ETFs and derivatives; and
- (ii) use additional assets to cover a Fidelity ETF’s market exposure: (i) when opening or maintaining a long position in a debt-like security that has a component that is a long position in a forward contract, or in a standardized future or forward contract; and (ii) when entering into or maintaining a swap position.

The Fidelity ETFs have received an exemption to permit them to invest in securities of an Underlying Fidelity ETF that may, at the time of the purchase, hold more than 10% of its net asset value in securities that are not index participation units of another Underlying Fidelity ETF.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities of exchange-traded funds within 48 hours after receipt of a confirmation of a purchase of such securities. In several of the provinces and territories of Canada, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages, if the prospectus and any amendment contains a misrepresentation or non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory.

The Manager has obtained exemptive relief from the requirement in securities legislation to include an underwriter's certificate in the prospectus. As such, purchasers of Units of the Fidelity ETFs will not be able to rely on the inclusion of an underwriter's certificate in the prospectus or any amendment for the statutory rights and remedies that would otherwise have been available against an underwriter that would have been required to sign an underwriter's certificate.

Purchasers should refer to the applicable provisions of the securities legislation and the decisions referred to above for the particulars of their rights or consult with a legal adviser.

DOCUMENTS INCORPORATED BY REFERENCE

During the period in which the Fidelity ETFs are in continuous distribution, additional information is available in:

- (i) the most recently filed ETF Facts documents of the Fidelity ETFs;
- (ii) the most recently filed annual financial statements of the Fidelity ETFs, together with the accompanying report of the auditor, if any;
- (iii) any interim financial statements filed after the most recently filed annual financial statements of the Fidelity ETFs;
- (iv) the most recently filed annual MRFP of the Fidelity ETFs, if any; and
- (v) any interim MRFP of the Fidelity ETFs filed after the most recent annual MRFP.

These documents are incorporated by reference into the prospectus, which means that they legally form part of this document just as if they were printed as part of this document. A Unitholder can get a copy of these documents upon request and at no cost by calling 1-800-263-4077 or by contacting a registered dealer.

These documents are available on the Manager's website at www.fidelity.ca or by contacting the Manager at 1-800-263-4077 or via e-mail at cs.english@fidelity.ca (for assistance in English) or sc.francais@fidelity.ca (for assistance in French).

These documents and other information about the Fidelity ETFs are available on the internet at www.sedar.com.

In addition to the documents listed above, any document of the type described above that are filed on behalf of the Fidelity ETFs after the date of this prospectus and before the termination of the distribution of the Fidelity ETFs are deemed to be incorporated by reference into this prospectus.

INDEPENDENT AUDITOR'S REPORT

To the Unitholder and Trustee of

Fidelity All-in-One Balanced ETF
Fidelity All-in-One Growth ETF

(individually, a "Fund")

Our opinion

In our opinion, the accompanying financial statement of each Fund presents fairly, in all material respects, the financial position of each Fund as at January 12, 2021 in accordance with those requirements of International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Board relevant to preparing a statement of financial position.

What we have audited

The financial statement of each Fund comprises the statement of financial position as at January 12, 2021 and the notes to the financial statement, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statement section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of each Fund in accordance with the ethical requirements that are relevant to our audit of the financial statement in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter – basis of accounting

We draw to users' attention the fact that the financial statement of each Fund does not comprise a full set of financial statements prepared in accordance with IFRS. Our opinion is not modified in respect of this matter.

Responsibilities of management and those charged with governance for the financial statement

Management is responsible for the preparation and fair presentation of the financial statement of each Fund in accordance with those requirements of IFRS relevant to preparing a statement of financial position and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the ability of each Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate any Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of each Fund.

Auditor's responsibilities for the audit of the financial statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole for each Fund is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statement of each Fund.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement of each Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of each Fund.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of each Fund to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement of each Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause any Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement of each Fund, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Vice-President and Director

(signed) "Barry Myers"
Barry Myers
Director

The accompanying notes are an integral part of this statement of financial position.

Notes to the Statements of Financial Position as at January 12, 2021:

1. Formation of the Fidelity ETFs

Each of Fidelity All-in-One Balanced ETF and Fidelity All-in-One Growth ETF (the “**Fidelity ETFs**”) is an exchange-traded fund established as a trust under the laws of the Province of Ontario effective January 12, 2021. The Fidelity ETFs have been established pursuant to a declaration of trust.

The number of units which may be issued by each Fidelity ETF is unlimited. Fidelity Investments Canada ULC (“**Fidelity**”), as manager and trustee of each Fidelity ETF, is responsible for the day-to-day operations and provides all general management and administrative services. Fidelity is responsible for the investment management of each Fidelity ETF’s portfolio. The registered office of each Fidelity ETF is located at 483 Bay Street, Suite 300, Toronto, Ontario M5G 2N7. The statement of financial position of each Fidelity ETF as at January 12, 2021 was authorized for issue by Fidelity’s board of directors on January 12, 2021.

Each Fidelity ETF meets the definition of an investment entity as its purpose is to invest its net assets for capital growth and/or investment income for the benefit of its unitholders, and its investment performance is measured on a fair value basis.

2. Summary of significant accounting policies

Basis of presentation

The Statement of Financial Position of each Fidelity ETF has been prepared in accordance with those requirements of International Financial Reporting Standards (“**IFRS**”) as published by the International Accounting Standards Board (IASB) relevant to preparing a statement of financial position. In applying IFRS, management may make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by each Fidelity ETF in the preparation of the Statement of Financial Position of each Fidelity ETF.

Cash

Cash is comprised of cash on deposit with a Canadian financial institution.

Classification of units issued by each Fidelity ETF

In accordance with IAS 32, each Fidelity ETF’s units’ entitlements include a contractual obligation to distribute any net income and net realized capital gains at least annually in cash (at the request of the unitholder) and, therefore, the ongoing redemption feature is not the units’ only contractual obligation. Therefore, each Fidelity ETF’s redeemable units do not meet the criteria for classification as equity and have been classified as financial liabilities on the Statement of Financial Position. Each Fidelity ETF’s obligation for net assets attributable to unitholders is recorded at the redemption amount.

3. Functional and presentation currency

The Statement of Financial Position of each Fidelity ETF is presented in Canadian dollars, which is the functional currency of each Fidelity ETF.

4. Related party transactions

Fidelity serves as the manager and the portfolio adviser of each Fidelity ETF. Each Fidelity ETF pays Fidelity a monthly management fee as outlined below. As at January 12, 2021 there have been no fees charged to the Fidelity ETFs as they have not yet commenced operations.

5. Management fee

The management fees directly payable to the Manager by each Fidelity ETF are nil. However, the Underlying Fidelity ETFs held by the Fidelity ETFs will pay management fees and will incur trading expenses.

This management fee covers certain of Fidelity's fees and costs associated with acting as the manager and the portfolio manager of the Fidelity ETFs, the fees paid to the sub-advisors and the other expenses that are payable by Fidelity in connection with the Fidelity ETFs.

Subject to the disclosure below, the Manager pays all of the operating and administrative expenses incurred by the ETFs. As a result, each Fidelity ETF will incur a management expense ratio that is a proportionate blend of the management expense ratios of the Underlying Fidelity ETFs.

In addition to the applicable management fee, the only expenses payable by each Fidelity ETF are: (i) the fees and expenses relating to the operation of the IRC; (ii) portfolio transaction costs, including brokerage commissions and other securities transaction related expenses, including the costs of derivatives and foreign exchange transactions; (iii) interest and borrowing costs; (iv) any new fee related to external services that is not commonly charged in the Canadian exchange-traded fund industry as of the date of creation of the Fidelity ETF; (v) the costs of complying with any new regulatory requirement, including any new fee introduced after the date of creation of the Fidelity ETF; and (vi) any applicable taxes, including income, withholding or other taxes, and also including applicable GST/HST on expenses.

Fidelity may decide, in its discretion, to pay some of these expenses, rather than having the Fidelity ETFs incur such expenses. Fidelity is under no obligation to do so and, if any expense is reimbursed by Fidelity, it may discontinue this practice at any time.

6. Net assets attributable to unitholders

A total of twelve units of each Fidelity ETF were issued for cash on January 12, 2021 to Fidelity. Fidelity holds all outstanding units of the Fidelity ETFs as at January 12, 2021.

Unitholders may redeem units of each Fidelity ETF in any whole number for cash for a redemption price per unit of 95% of the closing price for the units on the Toronto Stock Exchange on the effective day of the redemption, subject to a maximum redemption price of the applicable net asset value per unit, or may exchange a minimum of a prescribed number of units (and any additional multiple thereof) for, in the discretion of Fidelity, securities and cash or only cash. A prescribed number of units is a number of units determined by Fidelity from time to time for the purpose of subscription orders, exchanges, redemptions or for other purposes.

CERTIFICATE OF THE FIDELITY ETFS, THE TRUSTEE, MANAGER AND PROMOTER

Dated January 12, 2021
